SUMMARY OF AUDIT FINDINGS	
<p>The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.</p> <p>Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.</p>

<b>INTERVIEWS</b>	
<b>Inmate/Resident/Detainee Interviews</b>	
<b>Random Inmate/Resident/Detainee Interviews</b>	

53. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:	15
54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	<input checked="" type="checkbox"/> Age <input checked="" type="checkbox"/> Race <input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) <input checked="" type="checkbox"/> Length of time in the facility <input checked="" type="checkbox"/> Housing assignment <input type="checkbox"/> Gender <input type="checkbox"/> Other <input type="checkbox"/> None
55. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?	The Auditor utilized facility provided reports to select a variety of inmates from each housing unit throughout the facility. The reports provided by the facility include the demographics of the population.
56. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	<input checked="" type="radio"/> Yes <input type="radio"/> No
57. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	No text provided.
<b>Targeted Inmate/Resident/Detainee Interviews</b>	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	15
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	1
61. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:	1

<p>62. Enter the total number of interviews conducted with inmates/residents/detainees who are Blind or have low vision (i.e., visually impaired) using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>0</p>
<p>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>The Auditor asked staff and inmates during interviews if they were aware of a blind offender housed in the facility.</p>
<p>63. Enter the total number of interviews conducted with inmates/residents/detainees who are Deaf or hard-of-hearing using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>1</p>
<p>64. Enter the total number of interviews conducted with inmates/residents/detainees who are Limited English Proficient (LEP) using the "Disabled and Limited English Proficient Inmates" protocol:</p>	<p>1</p>
<p>65. Enter the total number of interviews conducted with inmates/residents/detainees who identify as lesbian, gay, or bisexual using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:</p>	<p>3</p>
<p>66. Enter the total number of interviews conducted with inmates/residents/detainees who identify as transgender or intersex using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:</p>	<p>2</p>
<p>67. Enter the total number of interviews conducted with inmates/residents/detainees who reported sexual abuse in this facility using the "Inmates who Reported a Sexual Abuse" protocol:</p>	<p>6</p>
<p>68. Enter the total number of interviews conducted with inmates/residents/detainees who disclosed prior sexual victimization during risk screening using the "Inmates who Disclosed Sexual Victimization during Risk Screening" protocol:</p>	<p>7</p>
<p>69. Enter the total number of interviews conducted with inmates/residents/detainees who are or were ever placed in segregated housing/isolation for risk of sexual victimization using the "Inmates Placed in Segregated Housing (for Risk of Sexual Victimization/Who Allege to have Suffered Sexual Abuse)" protocol:</p>	<p>0</p>

<p>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>The Auditor asked staff during interviews if they were aware of any offender being placed in segregated housing for the protection from sexual abuse. No staff were aware of such placement.</p>
<p>70. Provide any additional comments regarding selecting or interviewing targeted inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews):</p>	<p>No text provided.</p>
<p><b>Staff, Volunteer, and Contractor Interviews</b></p>	
<p><b>Random Staff Interviews</b></p>	
<p>71. Enter the total number of RANDOM STAFF who were interviewed:</p>	<p>12</p>

## SITE REVIEW AND DOCUMENTATION SAMPLING

### Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: discussions related to testing critical functions are expected to be included in the relevant Standard-specific overall determination narratives.

<p>84. Did you have access to all areas of the facility?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
--	---

### Was the site review an active, inquiring process that included the following:

<p>85. Reviewing/examining all areas of the facility in accordance with the site review component of the audit instrument?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>86. Testing and/or observing all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., intake process, risk screening process, PREA education)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>88. Informal conversations with staff during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</p>	<p>No text provided.</p>

### Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="" type="radio"/> Yes <input type="radio"/> No
--	--

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	No text provided.

## SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

### Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	2	0	2	0
Staff-on-inmate sexual abuse	4	1	4	1
<b>Total</b>	<b>6</b>	<b>0</b>	<b>6</b>	<b>1</b>

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment	2	0	2	0
Staff-on-inmate sexual harassment	9	0	0	0
<b>Total</b>	<b>11</b>	<b>0</b>	<b>11</b>	<b>0</b>

### Sexual Abuse and Sexual Harassment Investigation Outcomes

#### Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

**94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:**

	Ongoing	Referred for Prosecution	Indicted/Court Case Filed	Convicted/Adjudicated	Acquitted

<b>Inmate-on-inmate sexual abuse</b>	0	0	2	0
<b>Staff-on-inmate sexual abuse</b>	0	0	4	0
<b>Total</b>	0	0	6	0

**Sexual Harassment Investigation Outcomes**

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual harassment investigation files, as applicable to the facility type being audited.

**96. Criminal SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:**

	Ongoing	Referred for Prosecution	Indicted/Court Case Filed	Convicted/Adjudicated	Acquitted
<b>Inmate-on-inmate sexual harassment</b>	0	0	0	0	0
<b>Staff-on-inmate sexual harassment</b>	0	0	0	0	0

## Standards

### Auditor Overall Determination Definitions

- Exceeds Standard  
(Substantially exceeds requirement of standard)
- Meets Standard  
(substantial compliance; complies in all material ways with the stand for the relevant review period)
- Does Not Meet Standard  
(requires corrective actions)

### Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Interviews with Staff

Interviews with Offenders

**Analysis/Reasoning:**

The Auditor conducted a review of the North Carolina Department of Public Safety policy. The Auditor observed the policy includes the prevention, detection and response approaches towards sexual abuse and sexual harassment of offenders. The policy has definitions of sexual abuse, voyeurism and sexual harassment. The agency policy includes sanctions for staff, contractors, volunteers and custodial agents found to have violated the sexual abuse and sexual harassment policies and procedures. The NCDPS has a clear policy that mandates a zero tolerance towards sexual abuse and sexual harassment.

The Nash Correctional Institution has a policy that states, "DPS is committed to a standard of zero-tolerance of sexual abuse and sexual harassment toward offenders, residents, and safekeepers either by employees, volunteers, contractors, and custodial agents, or by other offenders, residents, or safekeepers. Therefore, it is the policy of DPS to provide a safe, humane and appropriately secure environment, free from the threat of sexual abuse and sexual harassment for all offenders, residents, and safekeepers by maintaining a program of prevention and detection." The facility policy includes definitions of:

- Sexual abuse of an offender by another offender
- Sexual abuse of an offender by a staff member, contractor or volunteer
- Voyeurism
- Sexual Harassment

The facility's policy includes its prevention, detection and response approaches. The approaches towards the prevention, detection and response to sexual abuse and sexual harassment included in the policy mirror the agency's approaches.

The Auditor reviewed the agency's organizational chart. The NCDPS has an Organizational Chart that outlines the position of the PREA Coordinator. The PREA Coordinator is listed under the Professional Standards, Policy and Planning. The PREA Coordinator reports directly to the Chief Deputy Secretary of Professional Standards, Policy and Planning. The PREA Coordinator is displayed as two positions below the Secretary of the North Carolina Department of Public Safety. Each facility is required to appoint a PREA Compliance Manager to oversee PREA efforts in their assigned facility. The Nash Correctional Institution appointed a Correctional Housing Unit Manager as the PREA Compliance Manager. The PREA Compliance Manager reports directly to the Warden and is assisted by the Regional PREA Program Analyst.

The NCDPS has appointed three PREA Program Analysts to assist with PREA compliance in their assigned region. The facility's PREA Compliance Manager reports PREA related concerns, issues and questions to the PREA Program Analyst. The Auditor discussed the PREA Compliance Manager's ability to develop, implement and oversee facility PREA efforts. The Auditor determined the PREA Compliance Manager has sufficient time and authority to oversee agency efforts to ensure compliance at the facility. The PREA Compliance Manager is knowledgeable about the facility and requirements of the Prison Rape Elimination Act. The PREA Coordinator and PREA Program Analyst have sufficient time, authority and effort to manage the North Carolina Department of Public Safety's compliance with the Prison Rape Elimination Act standards.

The facility's PREA Compliance Manager is employed at a level to enact change regarding PREA related compliance. The PREA Compliance Manager reports directly to the facility's Warden concerning anything related to the facility's sexual abuse and sexual harassment prevention, detection and response efforts. The facility's Warden designated the primary PREA Compliance Manager and an alternate PREA Compliance Manager. Both are designated on the facility's organizational chart. The Warden sent an inter Office Memorandum to the PREA Office designating both positions. The secondary PREA Compliance Manager serves as the facility's Associate Warden of Custody.

The Auditor conducted formal interviews with offenders. Interviews revealed the offender population was able to articulate information to the Auditor based on the agency's education efforts. The population interviewed stated they have received an education at the processing center and was provided written information upon arrival at the Nash Correctional Institution. Offenders that have been incarcerated at other NCDPS facilities stated they have received education and information at each facility. Offenders informed the Auditor staff are responsive to the needs of the population. Each offender was asked if he felt safe in the facility. Each offender stated they feel safe in the facility. Offenders understand their rights and how to report allegations of sexually abuse and sexually harassment.

The Auditor conducted formal interviews with randomly selected staff. The Auditor determined the facility's staff have been educated and retained the knowledge provided through agency training. Each staff member understands the agency's policies and procedures for preventing, detecting and responding to sexual abuse and sexual harassment. Each staff

member has been trained within the previous 12 months. The agency trains its staff on an annual basis. Staff informed the Auditor they receive additional PREA training between their required annual PREA trainings.

The agency's leadership supports subordinate staff efforts and ideas towards compliance with the Prison Rape Elimination Act. The command staff maintain an "open door" policy. Staff interviewed by the Auditor felt confident they could discuss any issue with the command staff. The facility's command staff are required to conduct and document regular unannounced tours throughout all facility areas.

**Conclusion:**

The Auditor conducted review of the agency and facility policies, procedures, organizational charts and conducted interviews with staff and offenders. The Auditor determined the North Carolina Department of Public Safety has developed an appropriate zero-tolerance policy that includes its prevention, detection and response approaches towards allegations of sexual abuse and sexual harassment. The agency has designated appropriate staff members that have sufficient time, authority and effort to develop, implement and oversee PREA efforts. The Nash Correctional Institution has successfully created a zero-tolerance culture in the facility. Though not required, the agency employs three PREA Program Analysts to supervise PREA compliance in their assigned region. The facility has designated a primary and alternate PREA Compliance Manager. The Auditor determined the NCDPS exceeds the requirements of this standard

## Interviews with Offenders

### Observations

#### **Analysis/Reasoning:**

The Auditor reviewed the NCI Post Chart. The post chart is developed to ensure appropriate staffing levels are determined in the facility. The most recent post chart was approved in August 2021 and includes 217 full time staff to cover facility posts. The staffing plan for the facility allows for 282 total staff. There are 226 security and 56 civilian positions dedicated at the facility. At the time of the audit the facility had 48 vacant security and 13 vacant civilian positions.

The Auditor determined the following staff to offender ratio based on the designed capacity (654) of the facility and the total positions (282):

- 1 staff member for every 2.3 offenders

The following denotes the staff to offender ratio utilizing the current number of offenders (654) and current number of staff (221):

- 1 staff member for every 3 offenders

The following denotes the staff to offender ratio utilizing the current number of offenders (654) and current number of security staff (178):

- 1 security staff member for every 3.7 offenders

The staffing plan reviewed by the Auditor includes provisions for administrative, support and security positions on all shifts in each facility area. The facility utilizes overtime to ensure vacant positions are filled for each shift when needed. The facility's staffing level was maintained at 22% below capacity at the time of the audit. Security staffing level was at 79% while civilian staffing was at 77% filled at the time of the audit.

The Nash Correctional Institution operates with two day and two night shifts. The duration of each shift is 12 hours.

The Officer-in-Charge has the authority to utilize overtime to fill vacant positions. The Auditor reviewed a sampling of duty rosters

from the previous 12 months. Rosters are completed by each Officer-in-Charge. The Auditor observed OIC's are documenting daily staff vacancies on each shift to account for the vacancies. The OIC documents staff working overtime to fill vacant positions. The OIC notates the reason for staff vacancies on the duty roster. The Auditor observed the duty roster includes sections for special assignments, daily leave status, primary assignments, training status, special notes, instructions and information, and the staff member designated as the backup OIC.

The Auditor reviewed the Nash Correctional Institution's annual staffing analysis. The most recent staffing analysis was conducted on January 25, 2022. The staffing analysis was conducted by the agency PREA Director. The PREA Director signed the staffing analysis. The NCI's staffing analysis includes considerations of the bulleted topics in the "Auditor Discussion" portion of this standard. The facility did not document any deviations from the staffing plan as the facility reported no deviations from the plan.

The Auditor conducted a formal interview with the Warden. The Auditor asked the Warden to explain the considerations when determining appropriate levels of staffing for the facility. The Auditor received responses that confirm the Warden participates in the post audit review and considers the bulleted items above when conducting the review. The Warden explained the agency implements a post audit review every two years to review the level of staff needed to cover all posts. When asked how the facility documents the reason for non-compliance with the staffing plan, the Auditor was informed the Officer-in-Charge documents the reason on the Daily Security Rosters. The Auditor asked the Warden who participates in the Post Audit review. The Warden informed the Auditor the region conducts the review in conjunction with facility personnel. The Warden informed the Auditor the PREA Office conducts the facility's annual staffing plan analysis.

The Auditor reviewed a sampling of NCI unannounced rounds documented in the Daily Shift Narratives. The sampling covered each shift from the previous 12 months. Facility supervisors each conduct unannounced rounds through all facility areas. Unannounced rounds are documented in the Daily Shift Narratives by date and time. Each supervisor signs the narrative at the conclusion of the shift. The Auditor observed unannounced rounds are occurring on each shift at various times throughout the shift.

While touring the facility the Auditor observed staff making security rounds in housing units and support areas of the facility. Staff were present in all areas toured by the Auditor. Security and medical personnel were observed interacting with the offender population. The Auditor observed offenders graduating a Bachelor Program and other offenders attending work and

education classes. The Auditor observed camera placements throughout the facility. Cameras have been strategically placed throughout the facility to monitor offender activity. The facility has installed mirrors to aid staff visibility in hard to see areas. The Auditor observed supervisors making unannounced rounds throughout various facility areas, to include housing units and service areas.

The Auditor conducted formal interviews with staff and supervisors from various shifts (day and night). Staff were asked if supervisors conduct unannounced rounds throughout the facility. Each staff member stated supervisors do make unannounced rounds throughout the facility. Supervisors were asked if they were required to make unannounced rounds. The Auditor was informed they are required to make at least one unannounced round in all facility areas and on each shift. Each supervisor was asked how they prevent staff from alerting other staff when they are making unannounced rounds. The Auditor was informed supervisors do not conduct their rounds at the same time or take the same route so they do not establish a pattern. Supervisors do not inform staff when they are conducting rounds.

Each supervisor was asked what actions they take if discovering a staff member was caught alerting other staff when supervisors are conducting unannounced rounds. Supervisors informed the Auditor they would verbally counsel the staff member about the importance of the unannounced round. Each was asked what they would do if they caught the person a second time. Supervisors stated they would recommend formal discipline for the staff member. The Auditor conducted formal interviews with offenders. Offenders were asked if they see supervisors entering housing units. Offenders stated supervisors do conduct rounds in housing units.

The Auditor observed the facility has a policy requiring all supervisors and managers conduct unannounced rounds of the facility. The policy requires the rounds for the purpose of deterring any sexual abuse or any other misconduct by staff or inmates.

The facility was not under a consent decree, a judicial finding of inadequacy, or a finding of inadequacy from a federal, internal, or external oversight body at the time of the audit.

**Conclusion:**

The Auditor concluded the facility has an adequate staffing plan to ensure the protection of offenders from sexual abuse. The staffing plan is reviewed in accordance with this standard. The Auditor reviewed policies, procedures, staffing analysis, staffing plan, post chart, Duty Rosters, Daily Shift Narratives, interviewed staff, offenders and made observations to determine the facility meets the requirements of this standard.

Offenders informed the Auditor staff of the opposite gender do not always announce their presence when entering housing units. The Auditor was informed an announcement is made at the start of each shift on the intercom system. Offenders informed the Auditor they</p>

are aware females do enter housing units. The Auditor discussed opposite gender announcements with the facility's Warden, Associate Warden of Operations and PREA Compliance Manager. Each were informed announcements are required when the status

quo of the staff member working housing units change. The PCM stated she will ensure staff make those announcements and document them in the log. The Auditor conducted formal interviews with male and female staff members. Each staff member was asked if opposite gender announcements were being made in the housing units. Each staff member informed the Auditor opposite gender announcements are being made when entering opposite gender housing units. The Auditor encountered male and female staff who stated they do make announcements.

The Auditor conducted formal interviews with personnel responsible for conducting searches upon arrival. The staff member was asked how a transgender offender is strip searched or pat searched when arriving. The Auditor was informed if the offender had a preference that was documented the facility would follow the preference of the offender. Staff were asked how showers for transgender and intersex offenders are conducted. The Auditor was informed the offender can shower alone and each shower has a curtain to protect anyone from seeing the offender fully naked. Staff are able to see the shower entrance to

ensure no other offender enters the shower. Pat searches are conducted by male and female staff. If a transgender has a documented preference for pat searches facility staff follow the preference of the offender. Facility staff were asked what they would do if they could not determine the genital status of an offender. The Auditor was informed they would ask the offender, review supporting documents, and if need be, call medical personnel to make the determination.

Staff were asked if they had been trained to conduct pat-searches of transgender and intersex offenders. Staff had been provided such training. Staff were asked if they would conduct a strip search of an offender if they could not determine the offender's sex. Each staff member stated they would not conduct a strip-search of any offender for the sole purpose of determining the offender's sex. The Auditor was informed they would contact medical personnel if they were unsure of the sex of an offender.

The Auditor reviewed the agency's training curriculum and training attendance rosters. The curriculum includes procedures how to conduct searches of transgender and intersex offenders and how to communicate with those offenders professionally. Training attendance rosters reveal staff had attended an initial training to conduct searches, including cross-gender searches, and attended training annually thereafter. New employees receive the training during their initial orientation and in the agency's training academy. The Auditor reviewed the training records of all NCI staff members. At the time of the audit the facility's training was 98.6 percent complete.

The agency has a policy for the management of transgender offenders. The policy requires a Facility Transgender Accommodation Review Committee (FTARC) to make routine accommodation determinations for transgender offenders based on clinical evaluations, historical documents and offender interviews. The FTARC is a multidisciplinary committee comprised of representatives from psychiatry, behavioral health, primary care provided, nursing, administration, unit manager, and the PREA Compliance Manager. Each transgender offender is given the opportunity to request special accommodations upon their arrival. The agency maintains a Division Transgender Accommodation Review Committee (DTARC). The DTARC reviews actions of the FTARC.

The Auditor conducted a detailed tour of the facility and was granted access to all offender housing units and other support areas. The Auditor observed all shower and restroom areas in the facility. Shower entrances are protected from view with a shower curtain. Offenders have the ability to shower without security staff of the opposite gender seeing them fully naked. Facility showers do allow a transgender or intersex offender the ability to shower separately from other offenders. The Auditor observed posters in the facility that remind offenders opposite gender staff may enter the housing unit at any time.

The Auditor conducted formal interviews with transgender offenders. Each was asked if they had an opportunity to shower separately from other offenders. The Auditor was informed they are allowed to shower separately from other offenders. Each was asked how strip and pat searches are conducted at the facility. Strip searches are conducted in a private manner. The Auditor was informed by each transgender offender that males conduct a strip and pat searches of them. None of the transgenders interviewed has a preference form authorizing females to conduct the strip search. Female staff are able to conduct pat down searches of transgender offenders.

The facility reported no incident in which a staff member conducted a cross-gender strip search in the previous 12 months.

**Corrective Action Required:**

The facility is required to update its policy to include a provision for inmates to shower, change clothes, and use the restroom without staff of the opposite gender viewing their breast, buttocks or genitalia.

**Corrective Action Taken:**

The Nash Correctional Institution revised the Administration-Inmate Sexual Abuse and Sexual Harassment policy. The policy includes a provision that requires staff make opposite gender announcements when entering housing units. The revision

states, "This policy [opposite gender announcements] will enable offenders to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks." The PREA Compliance Manager emailed the revised policy to the Auditor prior to the submission of this report.

**Conclusion:**

The Auditor conducted a review of NCDPS policies, procedures, training curriculum, training attendance rosters, post logbooks, posters, interviewed staff, offenders and made observations. The Auditor concluded the NCI staff had been appropriately trained to conduct cross-gender searches and how to make opposite gender announcements when entering housing units. Offenders have the ability to shower, change clothes and use the restroom with a level of privacy. Staff have been trained to treat transgender and intersex offenders respectfully and professionally in the facility. After revising facility policy, the Auditor determined the NCI meets the requirements of this standard.

offender to ensure he/she receives an understanding of the agency's PREA information and comprehensive education.

The agency Offender Orientation Booklet includes the following information:

- Zero-tolerance
- Reporting
- Ways to prevent sexual abuse victimization
- Facility response to incidents
- SafePlace Hotline number
- Definitions
- What to do if you are sexually abused
- Facts about sexual abuse
- Facts for the inmate who sexually abuses another inmate
- False reporting

Offenders who cannot read English or Spanish can benefit from the facility's PREA information through the use of the language line service. The agency maintains a contract with a provider for telephonic translation services. When the agency cannot provide a staff interpreter, staff read the information to the interpreter who translates the information to the offender. Each staff member interviewed was asked if the facility relies on offender interpreters or readers. Staff informed the Auditor they do not use offender interpreters or readers.

Each offender is required to sign the agency's Offender PREA Education Acknowledgement Form. The form states, "I have received PREA Education, and afforded an opportunity to ask questions related to the material presented." Offenders sign below the statement, "By my signature below, I acknowledge that I received and understand the information provided on "SEXUAL ABUSE AWARENESS FOR THE OFFENDER". Each offender prints his/her name, date and signs the form. An agency witness signs and dates the form. The education is provided to offenders within 30 days of arrival. When offenders are at the processing center for more than 30 days the education is provided by the processing center. Each facility is required to conduct an education upon the offender's arrival at the facility. The form includes the agency's zero-tolerance policy.

The Auditor reviewed the Sexual Abuse Awareness Brochure for offenders. Each offender entering the facility is provided a written copy of the brochure. Offenders are required to sign receipt of the written information and comprehensive educational session. The information and education are provided by the Case Manager. The Auditor observed the following information in the Sexual Abuse Awareness Brochure:

- Sexual abuse and sexual harassment definitions
- Preventing Sexual Abuse
- What to do if you are sexually abused
- Facts about sexual abuse
- Facts for the offender who sexually abuses another offender

The Auditor conducted a formal interview with one offender identified as hearing impaired. The offender acknowledged receipt of the information and comprehensive education provided at the reception center and facility. The offender understands how to report allegations and the facility's policies in response to sexual abuse and sexual harassment incidents. The facility allowed the offender an opportunity to ask questions related to the facility's sexual abuse and sexual harassment policies upon arrival.

The Auditor reviewed the records of 30 offenders. All 30 offenders had signed the PREA Education of Inmates Acknowledgment Form denoting their attendance and receipt of the Sexual Abuse Awareness Brochure. During interviews with offenders the Auditor determined offenders have received a comprehensive education and information at the processing center and were provided written information at the facility. Some offenders informed the Auditor they received the education and information at multiple facilities.

The Auditor conducted interviews with facility staff responsible for providing PREA information to offenders. The Auditor asked staff to explain how blind and deaf offenders benefit from the agency's information and education. Staff stated PREA information and education is read to blind offenders by a staff member. Deaf offenders can read the information. Staff informed the Auditor illiterate offenders are provided the information and education in a one-on-one session. The Auditor was informed staff either use a staff interpreter or the language line when dealing with non-English speaking offenders. The Auditor asked how staff communicate with offenders who only understand sign language. The agency maintains a contract for interpretive services, to include Sign Language services.

The Auditor conducted a formal interview with one offender identified as Limited English Proficient. The offender informed the Auditor he received the educational video while at the processing center. The offender stated he received written information

when arriving at the Nash Correctional Institution. The Auditor asked the offender what language the written information was provided in. He stated the facility provided the information written in English. The offender is able to read English. The offender understands his rights, knows how to report sexual abuse and sexual harassment and understands the facility's policies in response to such.

The Auditor conducted a detailed tour of the Nash Correctional Institution. Observations were made of readily available sexual abuse and sexual harassment materials and PREA posters throughout the facility, including each housing unit and service areas. All posters and posted materials were written in English and Spanish. During interviews with offenders the Auditor discovered all offenders were aware of the posted materials. All offenders informed the Auditor they received the PREA materials during booking, received an Orientation Handbook and received an education after arrival.

At the time of the audit there were no offenders who were blind.

**Conclusion:**

The Auditor concluded the agency provides information that ensures equal opportunity to offenders who are disabled. The facility takes reasonable steps to ensure meaningful access to all aspects of the facility's efforts to prevent, detect, and respond to sexual abuse and sexual harassment are provided to offenders who are Limited English proficient and those who are disabled. The Auditor conducted a review of agency policies, procedures, Sexual Abuse Awareness Brochure, PREA Education of Inmates Acknowledgment Form, interpretive services contracts, offender records, orientation information, conducted interviews with staff, offenders and made observations to determine the agency meets the requirements of this standard.

- Have you ever been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, or coercion, or if the victim did not consent or was unable to consent or refuse; and
- Have you been civilly or administratively adjudicated to have engaged in the activities described?"

The Auditor conducted an interview with the facility's Human Resource staff member. The Auditor was informed each candidate is asked to complete the Application Verification as part of the application process. The Auditor asked how the facility considers acts of sexual abuse and sexual harassment of those being promoted. The Human Resource staff member stated each is required to complete an application and DPS Employment Statements form when applying for a promotional opportunity. The Auditor asked if such is captured for contractors and if so, when. The Auditor was informed the information for contractors was not maintained at the facility. The Auditor asked if the facility provides information related to sexual abuse investigations and resignations to other institutional employers upon request. The Auditor was informed that information is provided upon request when accompanied with a release for information form.

The Auditor reviewed the agency's Professional Reference Check form. The form includes a definition of institutional employer and requires the previous employer check "yes" or "no" if the person was or was not employed in an institution. The institutional employer is required to answer, "Are you aware of your employee, being involved in any allegation of sexual abuse or sexual harassment that was found to be true or resigning during a pending investigation of any allegation of sexual abuse or sexual harassment before the investigation was finished?" If the employer answers "yes" they are required to describe the event and date in a comments section of the form.

The Auditor conducted a review of all employee background records. The facility provided the Criminal History Inquiry Log. The log includes the person's name, the date the criminal history check was performed and date of next check. The facility conducts a background check every five years from the date of hire. The agency performs a background record check through the North Carolina State Bureau of Investigations. The Nash Correctional Institution performs criminal history background checks electronically utilizing its Originating Agency Identification (ORI) number. The report provided to the Auditor reveals the facility is conducting criminal history background record checks every five years on employees and contractors.

The Auditor randomly selected the HR records of ten (10) staff members. A review of the 10 records revealed staff had completed the Employment Statement form and application prior to hiring and the Employment Statement form prior to any promotion. The Auditor observed each had answered the questions related to sexual abuse/harassment, initialed the form in the appropriate place and signed the form. The facility has not hired a staff member who previously worked at another institution employer within the previous 12 months.

The Auditor conducted formal interviews with staff. Staff were asked if they are aware of the criminal background records check process. Each staff is aware the facility conducts a criminal background records check at least every five years. Staff were asked when they are asked specific questions related to sexual abuse and sexual harassment. Each staff informed the Auditor they answer those questions before being hired, prior to promotion and yearly. Staff were asked if they were aware the agency has a continuing requirement to disclose acts of sexual abuse and sexual harassment. Each is aware of the agency requirement.

The Auditor conducted a formal interview with contract personnel. Each contractor was asked if they are aware the agency conducts a criminal record background check. Each contractor is aware the facility conducts such checks prior to services and every five years. The Auditor asked each contractor if they were ever questioned about prior or current acts of sexual abuse or sexual harassment. Each stated they were not asked those questions by the facility prior to performing services in the facility. Contractors are aware of the continuing affirmative duty to disclose acts of sexual harassment and sexual abuse.

**Corrective Action Required:**

The facility was required to have all contractors complete the Employment Statements form. After completion of the forms, copies were required to be sent to the Auditor.

**Corrective Action Taken:**

The facility ensured each contractor signed the Employment Statements form. Prior to the submission of this report, the Auditor was sent a copy of the signed forms. The Auditor verified each had completed the form. The Auditor was informed the forms will be completed prior to any new contractor performing services in the facility. Facility staff will maintain the completed forms.

**Conclusion:**

The Auditor concluded the Nash Correctional Institution is performing appropriate practices to identify previous acts

of sexual misconduct prior to hiring staff and enlisting the services of contractors, and before promoting staff members. The Auditor conducted a review of agency forms, employee records, contractor records, Criminal History Inquiry Log, and interviewed staff and contractors. The Auditor determined the facility meets the requirements of this standard after making corrective action.

center.

The facility has two staff trained as victim advocates who accompany a victim during the forensic examination. Each facility PSP has been screened prior to the designation and training. The Auditor conducted a formal interview with a facility PREA Support Person (PSP). The PSP confirmed the advocacy services provided to each sexual abuse victim. The Auditor asked the PSP if she has attended a forensic examination in the previous 12 months. The advocate stated she has not been asked to accompany a victim during a forensic examination within the previous 12 months. The PSP stated if requested she would also accompany the victim during investigatory interviews. The Auditor asked who contacts the PSP following a sexual abuse incident. The PSP stated the investigator or PREA Compliance Manager. Emotional support services are provided on site or by telephone with offenders when requested.

The Auditor conducted a telephone interview with a victim advocate with the rape crisis center. The advocate discussed the services offered to the Nash Correctional Institution. The Auditor asked if the advocate would accompany an offender during a forensic examination and investigatory interviews. The advocate stated if the offender requests the presence of an advocate the advocate would report to the hospital for such services. The Auditor asked how the advocate would know when services are being requested. The Auditor was informed the facility would contact "My Sister's House." The advocate was not aware of a forensic examination performed during this audit period.

The Auditor conducted a telephone interview with a Sexual Assault Nurse Examiner. The SANE explained forensic examinations are conducted at the hospital. The SANE explained the process of the forensic examination and the services and tests offered at the time of the examination. The Auditor asked the SANE if a victim advocate is allowed to accompany the victim during the forensic examination. The SANE informed an advocate is allowed to accompany the victim if the victim requests the accompaniment. The SANE informed the Auditor there has been no offender from the NCI brought to the hospital for a forensic examination in the past 12 months. The hospital does not bill the offender for the forensic examination.

The Auditor conducted a formal interview with medical practitioners. The Auditor asked if medical personnel conduct forensic examinations at the facility. Medical practitioners stated they do not conduct forensic examinations at the NCI. The Auditor was informed offenders in need of a forensic examination are sent to the hospital for those services. The examination is performed by a certified SANE. The Auditor asked when the last offender was sent for a forensic examination following an allegation of sexual abuse. There has been no offender sent for a forensic examination during this audit cycle. The Auditor asked how much offenders pay for forensic examinations and support services related to sexual victimization. Medical personnel informed the Auditor offenders are not charged for services related to sexual victimization.

The Chief Deputy Secretary, Division of Adult Corrections and Juvenile Justice sent a memorandum to all local law enforcement agencies and Sheriffs in which a NCDPS Prison was located in. The memorandum explains the NCDPS is committed to complying with the Prison Rape Elimination Act standards. The memorandum cites PREA standards 115.21 and 115.71. The memorandum requests that all assisting law enforcement entities adhere to the standards as cited in the memorandum.

The Auditor conducted a formal interview with two facility investigators. Each investigator was asked to explain the process when investigating allegations of sexual abuse. Each Investigator stated as soon as it is determined an act of sexual abuse requires a forensic examination, arrangements are made to immediately transport the offender to the hospital. The Auditor was informed criminal investigations of sexual abuse are conducted by the Nash County Sheriff's Office. The Auditor asked how evidence collection occurs at the facility. The facility Investigator explained the local law enforcement Investigator responds to the facility and collects evidence from the crime scene. The NCI staff preserve the crime scene until the criminal investigator arrives to process and collect evidence. The facility completes the chain of custody form. The PREA Evidence Chain of Custody Form includes the following information:

- Description of evidence
- Received from information
- Received by information
- Item released by information
- Reason
- Releasing and receiving signatures

Facility personnel are required to secure the crime scene following an incident of sexual abuse. The agency requires staff log activity in and out of the crime scene. Staff are required to track this information on the agency's Incident Scene Tracking Log following an incident of sexual abuse. The Incident Scene Tracking Log requires facility personnel include the following information:

- Facility Name/Number

- Investigator's Name
- Scene Location
- Name/Title
- Agency
- Date
- Time In
- Time Out
- Reason for Entering

**Conclusion:**

The agency is utilizing an appropriate uniformed evidence protocol to maximize the potential for usable physical evidence. The facility makes victim advocates available to victims of sexual abuse and ensures access to a forensic examination performed by a certified Sexual Abuse Nurse Examiner. The Auditor reviewed the NCDPS policies, procedures, Memorandum of Understanding, letter to LE agencies and Sheriffs, Coordinated Response Plan, and conducted interviews with staff, SANE and Victim

Advocate. The Auditor determined the agency meets the requirements of this standard.

The Auditor recommends the facility consider revising its Letter of Understanding with "My Sister's House." The recommendation is to add language that includes all services offered to inmate victims of sexual abuse by "My Sister's House"

The NCI has three staff members who have received training to conduct administrative investigations in the facility. **Conclusion:**

The Auditor concluded the Nash Correctional Institution appropriately refers criminal allegations of sexual abuse and sexual harassment to the Nash County Sheriff's Office who maintains the legal authority to conduct criminal investigations in the facility. The Auditor observed evidence the facility is investigating all allegations of sexual abuse and sexual harassment. After reviewing agency and facility policies, procedures, NCI Coordinated Response Plan, website, investigative records and interviewing staff, the Auditor determined the facility meets the requirements of this standard.

following training objectives in the lesson plan and included in the PowerPoint Presentation:

- Identify the "Prison Rape Elimination Act (PREA) of 2003" and the agency's zero-tolerance policy of sexual abuse and sexual harassment for offenders/juveniles;
- Define sexual abuse and sexual harassment;
- Define offenders'/juveniles' right to be free from sexual abuse and sexual harassment; and from retaliation for reporting;
- Identify relevant laws;
- Define employee responsibilities when responding to sexual abuse and sexual harassment;
- Define the unique attributes of working with females in confinement/under supervision;
- Define the unique attributes of working with males in confinement/under supervision;
- Define the vulnerabilities of persons in confinement/under supervision;
- Identify the dynamics of sexual abuse and sexual harassment in confinement/under supervision;
- Identify how to detect signs of threatened and actual sexual abuse in confinement/under supervision;
- Identify the common reactions to sexual abuse and sexual harassment;
- Identify methods of avoiding inappropriate relationships with offenders/juveniles; and
- Identify techniques for communicating effectively and professionally with offenders/juveniles including lesbian, gay, bisexual, transgender, intersex (LGBTI) and gender nonconforming populations.

At the time of the audit the facility employed 221 staff. The Auditor reviewed the NCI staff training records. Training records reveal all staff are provided the PREA training. The Auditor reviewed training records for the previous 12 month period. All staff had been provided annual in-service training and electronically signed an understanding and acknowledgment of the training. Facility personnel who attend in-person training sign the Prison Rape Elimination Act Acknowledgement Form. The agency's acknowledgement form stipulates, "I acknowledge understanding of the Prison Rape Elimination Act of 2003, NC General Statute Chapter 14-27.31, and the NCDPS zero-tolerance policy for sexual abuse and sexual harassment. I also acknowledge that I must report any knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment immediately." Employees are required to print and sign their name, date and a NCDPS representative signs the form as a witness. Agency training records are maintained in the electronic Learning Management System. The system allows staff to attend on-line training and allows training personnel to run reports to determine which staff members have completed training and which have not. The system allows training staff to easily monitor staff training activities.

The Auditor observed facility posters. The posters include Prison Rape Elimination Act information and red flags. The PREA Information poster includes the following:

- Zero-Tolerance Policy
- Employee Responsibilities
- Reporting
- NC General Statute 14-27.7(a)
- Sanctions

The Red Flags poster informs staff of items to look for that potentially alert of staff sexual misconduct with offenders. There are 39 actions listed on the Red Flags poster.

The Auditor conducted formal interviews with specialized and randomly selected staff. Each was asked about the training provided by the agency. All staff interviewed had been provided the training and informed the Auditor they receive training annually and sometimes more frequent. The Auditor asked each to explain the topics provided by the agency during their annual training. Staff were able to articulate the above listed topics. The Auditor determined staff were knowledgeable and retained the information provided during the training.

The Auditor conducted formal interviews with randomly selected and specifically targeted offenders. The offenders interviewed articulated staff appropriately respond to incidents and take sexual abuse and sexual harassment allegations seriously. The offenders collective responses allowed the Auditor to determine staff respond to the population as they have been appropriately trained to do.

**Conclusion:**

The Auditor concluded the facility has appropriately trained its staff and documented the training as required by this standard. Facility staff interviewed by the Auditor are knowledgeable in the training topics mandated in PREA standard 115.31. The Auditor reviewed agency policy, procedures, training curriculum, attendance rosters, posters, acknowledgement forms, conducted interviews with staff, offenders, and determined the facility meets the requirements of this standard.

bisexual, transgender,  
intersex (LGBTI) and gender nonconforming populations.

"One-time" volunteers and contractors are required to read and sign form OPA-T10. The form stipulates, "I acknowledge understanding of the Prison Rape Elimination Act of 2003, NC General Statute Chapter 14-27.31, and the NCDPS zero tolerance policy for sexual abuse and sexual harassment. I also acknowledge that I must report any knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment immediately." Each contractor is required to sign the form prior to performing services and volunteers are required to sign during their orientation. "One-time" volunteers sign the form prior to entry into the facility. The Auditor observed the following on form OPA-T10:

- Zero-Tolerance Policy
- NC General Statute 14-27.31
- Definitions
- Duty to Report
- Reporting Methods
- Acknowledgement

The Auditor reviewed North Carolina General Statute 14-27.31. The statute states, "If a person having custody of a victim of any age or a person who is an agent or employee of any person, or institution, whether such institution is private, charitable, or governmental, having custody of a victim of any age engages in vaginal intercourse or a sexual act with such victim, the defendant is guilty of a Class E felony."

The Auditor reviewed the training records of ten contractors and ten volunteers. A review of records reveals the facility is training contractors and volunteers prior to enlisting their services. The facility has suspended all volunteer services due to COVID19 restrictions in the facility. Each contractor and volunteer signed the OPA-T10 form. The facility utilizes the agency's Volunteer Orientation Program to train volunteers. The booklet includes the agency's zero-tolerance policy and how to report allegations of sexual abuse and sexual harassment.

The Auditor conducted formal interviews with contract personnel. Contractors verified they had been provided training related to the agency's zero-tolerance policy and how to report allegations of sexual abuse and sexual harassment. The Auditor asked specific questions related to the agency's policies and procedures for reporting allegations of sexual abuse and sexual harassment. Contractors understand the requirements for reporting allegations, information and knowledge related to such. Contractors were asked to explain the responsibilities under the NCDPS policies related to sexual abuse. Each contractor provided responses that reveal they understand their responsibilities according to the agency's policies and procedures. Contractors are aware the NCDPS maintains a zero-tolerance policy towards acts of sexual abuse and sexual harassment.

The facility has not conducted volunteer services since the onset of COVID-19. The Auditor did not conduct an interview with a facility volunteer. The agency maintains records that volunteers received information and understand how to report allegations of sexual abuse and sexual harassment and their responsibilities under the agency's prevention, detection and response policies and procedures.

**Conclusion:**

The Auditor concluded the facility is appropriately training volunteers and contractors and staff ensures documentation of training is maintained. The Auditor determined through a review of agency policies, procedures, training curriculum, training records, acknowledgement forms, and interviewing contractors the facility meets the requirements of this standard.

Staff ensure each offender watches the video titled, "PREA: What You Need to Know" and provide the initial training in person utilizing the intake training outline during the intake process. Each offender signs the Offender PREA Education Acknowledgement Form after receiving the education. The Auditor conducted a review of the agency's Sexual Abuse Awareness Brochure. The English and Spanish brochure includes the</p>

following sections:

- Sexual Abuse and Harassment Definitions;
- Preventing Sexual Abuse;
- What to Do if You are Sexually Abused;
- Facts About Sexual Abuse; and
- Facts for the Inmate Who Sexually Abuses Another Inmate.

Each offender receives the department's Orientation Booklet upon arrival. The booklet includes the agency's zero-tolerance information and directs offenders to immediately report a sexual abuse or sexual harassment incident to a staff member. The Orientation Booklet includes the following information related to sexual abuse and sexual harassment:

- Zero-tolerance
- Reporting
- Ways to prevent sexual abuse victimization
- Facility response to incidents
- SafePlace Hotline number
- Definitions
- What to do if you are sexually abused
- Facts about sexual abuse
- Facts for the inmate who sexually abuses another inmate
- False reporting

Upon transfer to another facility offenders are educated by the facility utilizing the Talking Points Fact Sheet. The fact sheet informs staff to provide the offender with a copy of the agency's Sexual Abuse Awareness Brochure and that the offender is required to sign the Offender Acknowledgement form. The Auditor observed the following information in the fact sheet:

- Right to be free from sexual abuse;
- Prevention;
- Policies and procedures for responding to incidents; and
- Ways to report incidences of sexual abuse and sexual harassment.

Each offender is provided a comprehensive education within 30 days of arrival in the NCDPS processing center. When the offender is transferred to his/her designated facility the education occurs at the facility the offender is transferred to. Each offender who arrives at the Nash Correctional Institution receives an orientation. The orientation includes the education and written materials. The orientation is conducted by the Case Manager. The offender receives a copy of the Orientation Handbook.

The comprehensive education is conducted in person. Each offender is provided time to ask questions at the conclusion of the education session. The agency maintains all comprehensive educational information in English and Spanish. The agency's comprehensive education materials include, the offender's rights to be free from sexual abuse and sexual harassment, rights to be free from retaliation for reporting sexual abuse and sexual harassment incidents and information regarding the agency's policies and procedures for responding to such incidents.

All North Carolina Department of Public Safety offenders enter the agency through a diagnostic facility. The Nash Correctional Institution is not designated as a diagnostic facility. Offenders are processed through the diagnostic facility prior to arrival. Offenders are provided the Sexual Abuse Awareness Brochure upon arrival at the diagnostic facility. All offenders are provided the comprehensive education at the diagnostic facility. Upon arrival at the Nash Correctional Institution the facility provides the offender the written information and a Case Manager conducts the facility orientation. Offenders are provided the written material and comprehensive education within a couple days of arrival.

Each offender is required to sign the agency's Offender PREA Education Acknowledgement Form. Offenders are required to print their name, offender number, date and sign the form. A staff witness is required to sign and date the form. The form requires the offender sign acknowledging, "I have received PREA Education, and afforded an opportunity to ask questions related to the material. I also understand that I have a duty to report any threat or occurrence of Undue Familiarity or Offender Sexual Abuse and Harassment to Department of Public Safety staff so that any potential victim may be protected and the abuser can be prosecuted to the fullest extent of the law. By my signature below, I acknowledge that I received and understand the information provided on 'SEXUAL ABUSE AWARENESS FOR THE OFFENDER.'"

The Auditor reviewed 30 offender classification records. A review of classification records revealed each offender signed for receipt of the information and comprehensive education on the Offender PREA Education Acknowledgement form. The comprehensive education was provided within 30-days of each offender's arrival. The Auditor was able to determine by a review of a relevant sample of offender classification records the offender population receives a comprehensive education.

The Auditor observed offenders have been educated multiple times. A review of offender records reveal they receive an education each time they are transferred to another facility. While interviewing offenders the Auditor was informed they received an Orientation Handbook and Sexual Abuse Awareness Brochure upon arrival.

The Auditor conducted a formal interview with one offender who was identified as hearing impaired. The offender was able to read the Sexual Abuse Awareness Brochure and Orientation Handbook. The offender understands how to report allegations of sexual abuse. The offender understands the agency's policies and procedures for prevention, detection and response to sexual abuse and sexual harassment. The offender knows how to report sexual abuse and sexual harassment and understands his rights as an offender.

The Auditor conducted a formal interview with one offender who is identified as Limited English Proficient. The offender was provided an orientation upon arrival at the facility. The offender informed the Auditor he received the written information in English. The video utilized for the education was played in his native language at the processing center. The offender understands his rights, the facility's policies in response to sexual abuse and sexual harassment and knows how to report allegations of sexual abuse and sexual harassment.

The Auditor conducted an interview with facility Case Managers. The Case Managers were asked how blind or visually impaired offenders are orientated. The Case Managers informed the Auditor the written information is read to the offender. When asked how an offender who does not speak English receives an orientation the Case Managers stated all materials are written in Spanish. If the offender speaks a different language the facility uses an agency interpreter or uses the Language Line to educate the offender. At the time of the audit there were no offenders who were identified as blind housed at the facility. The agency has facilities designated to house Limited English Proficient offenders. The Nash Correctional Institution is not designated as such.

The Case Managers were asked where they conduct the orientation with offenders. The orientation and screening takes place in each Case Manager's office. The office is a private area that allows the offenders to answer questions and speak without other staff or offenders hearing the offender. The Auditor asked if offenders are able to ask questions related to sexual abuse and sexual harassment. The Case Managers give each offender the opportunity to ask questions related to such. The Auditor asked how an education and information is provided to offenders with a cognitive disability. The Case Managers make arrangements to ensure every offender, regardless of their disability understands the agency's policies and procedures related to sexual abuse and sexual harassment.

While touring the facility the Auditor observed key information readily available in the form of PREA posters and postings throughout the facility. Each offender is provided written information that is always accessible to the offender. The facility maintains PREA materials written in English and Spanish. Each offender informed the Auditor they have seen information posted throughout the facility regarding sexual abuse and sexual harassment.

**Conclusion:**

The Auditor concluded the offender population at the Nash Correctional Institution has been appropriately educated in the agency's zero-tolerance policy, how to report allegations, rights to be free from sexual abuse, sexual harassment, retaliation, and the agency's policies and procedures for responding to such. The facility maintains appropriate documentation of such in each offender's record. The Auditor reviewed agency policies, procedures, offender records, Orientation Handbook, Sexual Abuse Awareness Brochure, facts sheet, posters, made observations, interviewed staff and offenders to determine the facility meets the requirements of this standard.

Investigators explained local law enforcement determine if and when to prosecute a case after referring to local prosecutors. The local law enforcement investigator collects physical evidence from the facility. Facility investigators explained they coordinate efforts with local law enforcement during criminal investigations. There was one allegation received by the facility within the past 12 months that required referral for criminal investigation.</p>

The Auditor reviewed administrative investigation reports from the previous 12 months. The agency has developed an electronic investigative report that requires investigators input data into the electronic system. A review of investigative reports reveal investigators have been trained to conduct sexual abuse investigations.

No department of justice component is required to investigate sexual abuse allegations in the Nash Correctional Institution.

**Conclusion:**

The Auditor concluded the agency has provided appropriate training to it's Sexual Abuse Investigators. The Auditor conducted a review of policies, procedures, training curriculum, training records, investigative reports and conducted an interview with facility investigators to determine the agency meets the requirements of this standard.

**Corrective Action Required:**

The Nash Correctional Institution is required to train all medical and mental health practitioners in the following topics:

- Detecting and assessing signs of sexual abuse and sexual harassment;
- Preserving physical evidence of sexual abuse;
- Responding effectively and professionally to victims of sexual abuse and sexual harassment; and
- How and to whom to report allegations or suspicions of sexual abuse and sexual harassment.

The facility is required to document the training and have each medical and mental health practitioner sign the Training Course Record. A copy of the Training Course Record shall be sent to the Auditor upon completion. The facility is required to send a report from the electronic training system verifying completion of the Specialized Medical Training.

**Corrective Action Taken:**

The facility required each medical and mental health practitioner complete the Specialized Medical Training prior to the submission of this report. Practitioners completed the agency's course titled, "PREA-Sexual Abuse and Sexual Harassment Medical & Mental Health Response training." The Auditor was sent a copy of the electronic training tracker printout verifying each practitioner completed the required training. The facility sent the Auditor the completed Training Course Record signed by practitioners. The Auditor verified each medical and mental health practitioner has received the Specialized Medical Training.

**Conclusion:**

The Auditor concluded medical and mental health professionals at the Nash Correctional Institution have been appropriately trained. The facility maintains documentation that medical and mental health professionals have received specialized medical training and the same training offered to all NCDPS staff. The auditor conducted a review of NCDPS policies, procedures, training curriculum, training records and interviewed medical and mental health practitioners and determined the facility meets the requirements of this standard after making corrective action.

- Prior acts of sexual abuse;
- Prior convictions for violent offenses; and
- History of prior institutional violence or sexual abuse.

A mental health professional screens each offender who is booked into the agency at the diagnostic center. Upon transfer the Case Manager at the transferring facility conducts a screening (Case Manager Screening) upon their arrival. The initial screening by the Case Manager considers the offenders gender identification status, sexual victimization, offender's own perception of safety, and the Case Manager's own perception of the offender. The Case Manager also collects the following information on a Risk/Needs -

Service Priority Level Report with the following sections:

- Criminal History;
- Offender's Current Status;
- Behavior;
- Substance Abuse;
- Education;
- Employment;
- Family/Friends;
- Life Skills;
- Mental Health;
- Financial;
- Housing;
- Transportation; and
- Legal Status.

Each offender who enters the North Carolina Department of Public Safety is initially screened within 72 hours by a staff member upon admission. The staff member questions the offender utilizing several agency risk screening forms in the electronic record system. All answers are electronically included in the agency's electronic system. When an offender is transported to the Nash Correctional Institution the offender is screened. All offenders are assessed within 72 hours of arrival at the receiving facility and the offender's assigned facility. The risk screening questions are asked of each offender by the facility's Case Manager. The Case Manager at the facility is unable to view the offender's initial assessment conducted at the diagnostic center. Offenders identified at risk by processing staff are included on the agency's High Risk of Victimization (HRV) and High Risk of Abusiveness (HRA) report.

The Auditor conducted a formal interview with facility Case Managers. Case Managers conduct the screening and reassessment of each offender in an office. The office is a private area and is conducted in a manner where other offenders and staff cannot hear the answers provided by the offender. The Auditor asked Case Managers how long after arrival do they conduct the risk screening and assessment. Case Managers meet with offenders within 72 hours of arrival. The Auditor asked if any reassessments are conducted of offenders after the initial assessment. Case Managers explained a reassessment is conducted upon a referral, request and after an alleged incident of sexual abuse. The Auditor asked how the Case Manager is able to see if an offender has been previously victimized by sexual abuse. They explained those who have been victimized and score as vulnerable to sexual victimization are included in an alert system. The Case Manager receives the alert notification from the diagnostic center when transferred.

The Auditor asked Case Managers to explain what they do if an offender refuses to answer the questions. Case Managers stated they refer to all information that is included in the OPUS system when making decisions. The Auditor asked Case Managers if they discipline an offender for refusing to answer the questions. Each Case Manager stated they do not discipline offenders for refusal to answer the questions. None of the Case Managers has had an offender refuse to answer the questions.

The Auditor conducted a review of 30 offender classification records. Each record included the various forms used to screen offenders upon arrival. Each offender had been screened within 72 hours of their arrival at the processing center and screened upon arrival at the Nash Correctional Institution. The Auditor observed 30-day reassessments in offender records. The Auditor observed inconsistencies in the screenings conducted by Case Managers. The Auditor observed several risk screenings conducted beyond the 72 hours of arrival. The Auditor discussed the finding with the PREA Compliance Manager, Warden and Associate Warden of Operations.

The Auditor conducted formal interviews with staff. Staff were asked if they have access to the information obtained from an offender's risk screening conducted during the booking process. All randomly selected Correctional Officers informed the Auditor their access in the OPUS was limited and could not see the assessments. The Auditor was informed each staff member is provided a unique username and password. The agency limits staff access in OPUS based upon their position in

the agency.

The Auditor conducted formal interviews with offenders. All offenders targeted for interviews and randomly chosen for interviews were asked if they had been asked questions as previously listed during the intake process. Offenders stated they had been asked such questions during the booking process at the reception center. The Auditor asked each offender if anyone at the facility had asked them the same questions after being booked into the facility. Most offenders remembered being asked questions upon their arrival. Some offenders stated they don't remember the questions asked of them. Offenders who have been transferred to multiple facilities stated they are asked questions each time they arrive at another facility.

At the time of the Audit there were no offenders detained solely for immigration purposes.

**Conclusion:**

The current information obtained through the screenings is not visible to all pertinent staff. Correctional officers at the Nash Correctional Institution assign bed and housing and are unable to view any information from the risk screening. Unit Managers have authority to move offenders from one housing unit to another. Unit Managers are unable to view an offender's screening information. Only medical and mental health staff can view the initial screening information obtained at the diagnostic center. The Auditor recommends the agency consider consolidating the risk assessment questions that comply with this standard on one objective screening tool that is visible to staff who assign bed, housing, work, education and program assignments.

The agency has updated its OPUS system to alert Case Managers when the initial screening and 30 day reassessments are due. The agency's classification staff is attempting to discover the level of risk of sexual victimization or sexual abusiveness of offenders during the booking process and within 30 days of arrival at another facility based upon additional information, incidents and referrals. The Auditor reviewed agency policies, procedures, offender records, interviewed staff and offenders to determine the facility meets the requirements of this standard.

The Auditor reviewed 30 offender classification records. Of the records reviewed there was two offenders who identified as transgender and two offenders who identified as gay or bisexual. The facility Case Manager screens each offender entering the facility. The Case Manager can view information in the Offender Population Unified System (OPUS) but cannot see the offender's answers to the initial screening questions. Information in the OPUS is derived from the Case Analyst at the Diagnostic Center. Once the Case Analyst inputs the offender's information in the OPUS an automatic risk calculation is made by the system. The system automatically identifies offenders as high risk of sexual victimization and high risk of sexual abusiveness based on the automatic scoring system. A report identifying those offenders can be viewed and printed in the OPUS. The screening utilized by the facility has limited questions for the Case Manager to consider.

The Case Manager screens offenders upon their arrival at the Nash Correctional Institution. Staff make individualized considerations when determining how an offender is assigned housing, bed, work and other assignments to ensure each offender is maintained safely in the facility based on the information maintained in OPUS and information provided by each offender. The assessment form considers an offender's own views of safety when determining assignments. The Auditor observed classification staff is utilizing information obtained from the risk screening to assign facility work and program assignments to ensure those offenders are protected. Housing and bed assignments are assigned by correctional staff. The Case Manager and Classification discuss any pertinent information with correctional staff if a special housing or bed assignment is determined a need. The Case Manager ensures offenders identified at risk of victimization are not placed in a work, program or education assignment with those identified as potential abusers. Case Management staff considers an offenders own perceptions of their safety before making classification decisions.

The Auditor asked if Case Managers consider a transgender/intersex offenders' own perception regarding their safety in the facility. Case Managers informed they consider all offenders own perceptions regarding their safety. The Auditor asked Case Managers how often transgender and intersex offenders placements are reviewed. The Auditor was informed a review occurs at least every six months to discuss their placement status. The Case Manager documents the meeting in the OPUS electronic record. The Auditor asked if there were any transgender/intersex offenders housed in the facility. At the time of the audit there were offenders in the facility who identified as transgender.

The Auditor conducted interviews with offenders who identified as transgender. Each was asked if they have an opportunity to shower separately from other offenders. Each informed the Auditor they are able to shower separately from other offenders. The Auditor asked each if they had been placed in a dedicated housing unit. None had been housed in a dedicated housing unit. Each was asked if they were able to provide any input in their views towards their safety and housing assignments. The Auditor was informed they are able to provide input and explained they periodically meet with their assigned Case Manager. The Auditor conducted a review of transgender offender records. A review of each record revealed the facility is conducting a review at least every 6 months of each offender's assignments.

The Auditor conducted formal interviews with offenders who identified as gay and/or bisexual. Each was asked if he was placed in a dedicated housing unit. None had been housed as such. The Auditor reviewed the classification records of each. Facility personnel utilized individual determinations when assigning housing, programming, education and work assignments to each offender. Each offender was asked about his own thoughts regarding their safety in the facility.

The auditor observed all housing units in the facility during a detailed tour. While touring, the Auditor observed all shower and restroom areas. Transgender and intersex offenders have the opportunity to shower separately from other offenders in all facility housing units. The entrance to facility showers is protected with a shower curtain. There is one working shower head in each housing unit shower. Only one offender is allowed in the shower at a time. There is a direct line of sight from the officer's station to the shower entrance areas. A security staff member is posted in each housing unit 24/7.

At the time of the audit the Nash Correctional Institution was not under a consent decree, legal settlement, or legal judgement for the purpose of protecting lesbian, gay, bisexual, transgender or intersex offenders.

**Conclusion:**

The Auditor concluded the facility is making individualized determinations when assigning housing, bed, work, programming and education assignments to offenders. The agency has appropriate policies, procedures and practices in place to protect those identified at high risk of victimization. The facility does allow transgender and intersex offenders the opportunity to shower separately from other offenders in the Nash Correctional Institution. The Auditor conducted a review of policies, procedures, offender records, made observations and interviewed staff and offenders to determine the facility meets the requirements of this standard.

Staff were asked to explain how often reviews of the offender's placement would be made. The Auditor was informed the placement status would be reviewed at least every 30-days. Staff informed the Auditor the facility has not had to place an offender in protective custody for protection from sexual abuse as the facility has other housing options available. The staff member stated restrictions are documented so staff working the unit are informed. The Auditor was informed the documentation includes the specific restriction, length of the restriction and the reason for restricting the activity. The staff member informed the Auditor the facility has never placed an offender identified at high risk of sexual victimization in restrictive housing for protection from sexual abuse.</p> <p data-bbox="240 2036 1485 2161">The Auditor observed the facility has eight distinct housing units available for offender placement. The Auditor asked the facility's Warden how difficult</p>

it is to transfer an offender. The Warden informed the Auditor if the facility can justify a legitimate need then the transfer is not difficult.

The Auditor reviewed the facility's HRV and HRA reports. The PREA High Risk Victimization Report reveals there are offenders at the facility who are identified at high risk of sexual victimization. The PREA High Risk Abusiveness Report reveals there are offenders identified as high risk of sexual abusiveness. The Auditor determined there are no offenders identified at high risk of sexual victimization housed with an offender identified as high risk of sexual abusiveness. The Auditor verified the facility has ensured offenders have been safely housed in the facility. Housing records reveal the facility has not placed those offenders in restrictive housing for protection.

The Auditor conducted formal interviews with offenders who identified as transgender, gay and bisexual, at risk of sexual victimization and offenders who reported an allegation at the facility. Each offender was asked if they had been placed in restrictive housing for the protection from sexual abuse. None of the offenders had been placed in restrictive housing for such purpose, against their will. The Auditor reviewed the records of those offenders. A review of records revealed none had been placed in involuntary protective custody.

Facility Case Managers and supervisors stated they do not use restrictive housing to place offenders for the protection from sexual abuse.

**Conclusion:**

The facility has appropriate procedures in place to ensure offenders identified at high risk of sexual victimization are protected from sexual abusers. The agency has policies in place to ensure offenders placed in restrictive housing have access to programs, privileges, and education opportunities. The facility's staff understands the requirement of conducting assessments, documenting restrictions and conducting reviews of offenders placed in protective custody for the protection from sexual abuse. The Auditor reviewed NCDPS policies, procedures, classification records, HRA and HRV Reports, made observations and interviewed staff and offenders to determine the facility meets the requirements of this standard.

- Third-party; and
- Toll free PREA telephone number for reporting directly to the PREA Office.

The policy stipulates, "Inmates will be provided with multiple way of reporting, which shall be covered during the orientation process upon transferring into the facility."

The Auditor reviewed the agency's Sexual Abuse Awareness Brochure. Each offender is provided the brochure during their intake. The brochure informs offenders to report sexual abuse or sexual harassment immediately to a staff member. Each offender receives an orientation upon arrival at the Nash Correctional Institution. The Case Manager provides the orientation and gives each offender a copy of the Orientation Booklet. The booklet informs offenders they may report allegations of sexual abuse in person, in writing, or anonymously by:

- Letter to the facility head;
- Talk with a staff member you trust;
- Tell a family member or friend;
- Letter to the PREA Office at (address provided);
- Write to Prison Legal Services ( address provided); and
- Call the Hot Line (number provided).

The Auditor reviewed the records of 30 offenders. A review of records revealed each offender was provided the Sexual Abuse Awareness Brochure and provided an orientation at the facility. Each offender received a copy of the NCI Orientation Booklet. All 30 offenders signed an acknowledgement form documenting their understand of the available reporting avenues.

The Auditor participated in a detailed tour of the Nash Correctional Institution. The tour included all offender housing units and support areas. Observations were made of posters and postings throughout the facility that inform offenders about the agency's zero-tolerance to sexual abuse and sexual harassment and how to report allegations of sexual abuse and sexual harassment. The postings include the agency's available hotline numbers. Offenders are not required to input a designated PIN number to dial the hotline number. This ensures offenders can remain anonymous upon request.

The Auditor discovered the private organization that answers the hotline number is the Forgiven Ministry. The Forgiven Ministry immediately forwards allegations of sexual abuse to the PREA Director, allows offenders to privately report sexual abuse, and to remain anonymous upon their request. The Forgiven Ministry is not part of the agency. The Auditor previously tested this reporting number while auditing another agency facility. Offenders can also report allegations to the "My Sister's House" rape crisis center.

The Auditor reviewed staff training records. The agency's training includes the reporting avenues available to the offender population. All staff are provided the training in orientation, during the Correctional Officer Basic Course and during in-service training. Staff are informed of their avenue for privately reporting allegations of sexual abuse and sexual harassment in the agency's policy as listed in the "Auditor Discussion" section above. The agency policy allows staff to privately report by email or telephone to the PREA Office, Anonymously through the Fraud, Waste, Abuse & Misconduct Hotline, and to local law enforcement.

The Auditor reviewed the North Carolina Department of Public Safety website. The website includes a link to submit a report of undue familiarity or sexual misconduct." The website informs the public they may report allegations by contacting:

- Prison facility or judicial district office;
- Officer-in-charge or probation officer;
- Facility or division administrator;
- Correctional employee;
- Division director's office;
- Department of Public Safety Communications Officer (Number provided); and
- PREA Administration office (number and email provided).

The facility has materials posted that include the avenues of reporting for offenders, family and friends, and staff. The poster includes the following reporting avenues for offenders:

- To Any departmental employee;
- Through the Administrative remedy process (Grievance);
- Writing a letter to the PREA Office- MSC 4201;

- Third party to include family members, friends, outside organization; and
- Local Rape Crisis Center.

Family and Friends reporting avenues include:

- Email (email address provided);
- By phone to the Fraud, Waste, Abuse or Misconduct Hotline (number provided); or
- Anonymously by phone, mail, or email.

Staff Reporting Avenues include:

- Immediately through the chain of command;
- Contacting the PREA Office via phone or email; or
- Fraud, Waste and Abuse or Misconduct Hotline at (number provided).

The Auditor conducted formal interviews with randomly chosen staff. Each staff member was asked if he/she is required to accept any and all reports of sexual abuse, sexual harassment, retaliation and staff neglect. Staff informed the Auditor they are required to accept such reports. Staff stated they are required to report allegations immediately to the Officer-in-Charge and include the information on a written Incident Report. Each staff member was asked how they would privately report an allegation. The Auditor was informed staff would report privately to their supervisor or the next highest person in the chain of command, use the hotline number, report to the PREA Compliance Manager, notify an investigator or call local law enforcement.

The Auditor conducted formal interviews with randomly chosen and specifically targeted offenders. Offenders were asked to explain how they would report an allegation of sexual abuse, sexual harassment, retaliation, or staff neglect. Most offenders informed the Auditor they would report the allegation directly to a staff member. Offenders stated they can call the hotline number and are aware of anonymous and third-party reporting. Each offender understands they can make an allegation through the formal grievance mechanism.

The Auditor conducted formal interviews with contractors. The Auditor asked if contractors are required to report any knowledge, suspicion or information regarding an act of sexual abuse or sexual harassment. Each contractor informed the Auditor they are required to immediately report such. When asked if they are required to document the information, contractors informed the Auditor they would be required to write a report.

The Auditor reviewed investigative reports from the previous 12 months. The reports reveal staff are documenting allegations on an Incident Report and Statement by Witness forms. The facility received six allegations of sexual abuse and 11 allegations of sexual harassment in the previous 12 months. The Auditor observed evidence allegations were submitted by a grievance and verbally reported to a staff member. Investigative records include the written statements of the staff members who received the allegations. Records reveal staff verbally informed their supervisor and supervisors notified an investigator.

At the time of the Auditor there were no offenders detained solely for civil immigration purposes.

**Conclusion:**

The North Carolina Department of Public Safety provides multiple ways for offenders to report allegations of sexual abuse and sexual harassment, including a private organization that is not part of the agency who immediately forwards reports of sexual abuse and sexual harassment to the PREA Director. The facility requires staff to accept, report and document all allegations of sexual abuse and sexual harassment. The Auditor reviewed agency policies, procedures, Sexual Abuse Awareness Brochure, Website, postings, orientation information, posters, investigative reports, training records, made observations, interviewed staff and offenders, and determined the facility meets the requirements of this standard.

Agency policy does not impose a time limit on any portion of a grievance alleging sexual abuse and does not impose a time limit when an offender may file a grievance alleging sexual abuse. The agency does apply time limits to any portion of a grievance that does not allege an incident of sexual abuse. The policy requires the Grievance Officer move forward with the specific steps outlined in the policy to address grievances alleging sexual abuse. When submitting a grievance alleging sexual abuse an offender is not required to exhaust informal means or participate in any process which requires interaction with the alleged perpetrator. Policy states, "No employee who appears to be involved in an inmate sexual abuse or harassment allegation shall participate in any capacity in the response." None of the offenders interviewed by the Auditor had filed a grievance alleging sexual abuse or alleging an imminent risk of sexual abuse. Offenders informed the Auditor they could use the grievance to report sexual abuse anonymously.</p>

The Auditor conducted interviews with facility staff. Staff were asked if offenders could submit a grievance alleging sexual abuse and/or alleging an imminent risk of sexual abuse. Each staff member was aware offenders could file such grievances. Supervisors interviewed by the Auditor explained their responsibilities in responding to grievances alleging an imminent risk of sexual abuse. Supervisors informed the Auditor they take immediate action to ensure the safety of the offender. The Auditor was informed the offender is provided a response within 48 hours. The Auditor asked what is included in the written response. The Auditor was informed they include whether the offender is at substantial risk of imminent sexual abuse and the supervisors actions taken in response to the emergency grievance.

The Nash Correctional Institution reported no offender submitted a grievance alleging an imminent risk of sexual abuse and five offenders submitted a grievance alleging sexual abuse within the previous 12 months. Of the grievances submitted, the facility did not request an extension in any case. The facility determined most grievances alleging sexual abuse did not meet the definition of sexual abuse.

**Conclusion:**

The Auditor determined the NCDPS has appropriate policies and procedures in place for addressing offender allegations of sexual abuse and an imminent risk of sexual abuse. Facility staff understand the agency's procedures and the offender population is aware they can submit grievances alleging sexual abuse and/or risk of imminent sexual abuse. The Auditor reviewed agency policies, procedures, grievances, Offender Handbook, posters, conducted interviews with staff and offenders to determine the facility meets the requirements of this standard.

The Auditor recommends the agency consider updating its Offender Handbook to inform offenders of the agency response to grievances alleging sexual abuse and an imminent risk of sexual abuse.

The Auditor was informed each offender was provided a comprehensive education upon arrival at the processing center. Offenders who have been incarcerated before the enactment of PREA stated they have received an education. The Auditor asked all offenders if they had noticed posted materials in their housing units. Each had seen the materials. Most offenders stated they have seen the reporting information including the contact information of the rape crisis center posted in the housing units.</p> <p data-bbox="240 1960 1469 2152">The Auditor contacted an advocate from the rape crisis center. The advocate discussed the items agreed to in accordance with the MOU with the NCI. The advocate was asked if any offender has contacted her agency within the previous 12 months to request services related to sexual victimization. The advocate was unaware of an offender who attempted such. The Auditor asked if the organization would come to the facility to provide services to victims. She stated if "My Sister's Place" determined a need to provide services in person they would do so. The Advocate was asked if referrals</p>

were made by "My Sister's House." The Auditor was informed offender victims are referred for services if a need is determined. The Auditor was informed offender victims are provided services to the extent allowed.

The Auditor conducted an interview with a PREA Support Person. The PSP was asked if offender victims have access to confidential support services. The PSP stated victims are informed of "My Sister's House" services following an incident of sexual abuse and during booking. The facility's medical and mental health practitioners also discuss services with the offender victim. The PSP stated she is contacted immediately following an incident of sexual abuse as the PSP is required to provide support during the forensic examination when requested by the victim. The role of the PSP is to ensure victims receive services and follow-up services as required by this standard. The PSP is required to document services offered to victims. The PSP notifies the rape crisis center following an incident of sexual abuse when a victim requests such services.

The Auditor reviewed investigative records of allegations received in the previous 12 months. In each sexual abuse allegation a PREA Support Person was assigned to the alleged victim. The PSP provided and offered supportive services and documented the offer. Each alleged victim signed the written form offering services. The OPA-I30 form informs alleged victims community-based advocates and/or mental health professionals in the facility are available. There were no offenders housed at the time of the audit who had suffered sexual abuse and were provided services by the rape crisis center.

The Auditor participated in a tour of the facility. During the tour the Auditor observed information posted in each housing unit. Information regarding the rape crisis center was posted in each housing unit. The Auditor observed the posted information included the address to the local rape crisis center. The posted information did not include the telephone number. The Auditor addressed the finding with the PREA Compliance Manager. The PREA Compliance Manager added the telephone number to each posting in housing units. The facility's information regarding the monitoring and recording of telephone calls is included on each telephone in housing units.

There were no offenders detained solely for civil immigration purposes housed at the facility.

**Conclusion:**

The facility maintains documentation it provides emotional support services for sexual abuse victims through a written agreement. Contact information with the organization is provided to each offender and included in posters in each housing unit. The Auditor reviewed NCDPS policies, procedures, letter of agreement, Orientation Booklet, training acknowledgements and interviewed staff, offenders and victim advocate to determine the facility meets the requirements of this standard.

The Auditor recommends the agency consider adding language in its Offender Handbook regarding offender access to outside victim advocates for emotional support services related to sexual abuse.

understand how to have a third party file an allegation on their behalf.

The Auditor conducted a formal interview with two facility investigators. Each investigator was asked in what ways they have received reports of sexual abuse and sexual harassment. The investigators explained they have received allegations verbally, anonymously, in writing and by third parties. Each investigator stated third party and anonymously reported allegations are investigated in the same manner as all other investigations that are received. Investigators continue efforts until a determination can be made.

**Conclusion:**

The Auditor determined the facility accepts all reports, including third-party reports, of sexual abuse and sexual harassment. The public is informed through the agency's website how to make a third-party report on behalf of an offender. The Auditor reviewed agency policy, procedures, website, posted PREA materials, handbook, Third Party Reporting Form, interviewed staff and offenders, made observations and determined the facility meets the requirements of this standard.

The practitioners informed the Auditor they immediately report the information to their supervisor and the Officer-in-Charge. Practitioners stated they are required to submit a written report following the notification. Medical and mental</p>

health practitioners stated they are required to inform offenders of their duty to report and the limitations on confidentiality at the initiation of services. Offenders are provided a consent form at the initiation of services.

The Auditor asked who medical and mental health practitioners report information related to a sexual victimization that occurred in a community setting to. Medical and mental health practitioners do not report community victimization without obtaining written informed consent from the offender. The Auditor asked if there has been a situation where medical or mental health had to report sexual victimization that occurred in a community setting. The Auditor was informed there has not been a need to report such information. Medical and mental health practitioners informed the Auditor they are mandatory reporters for youthful offenders and of victimization that occurred in a confinement setting. The facility does not house youthful offenders.

The Auditor conducted formal interviews with two facility investigators. The Auditor asked each investigator if they have conducted investigations of allegations that were reported by third parties. Investigators stated they have conducted such investigations. The Auditor asked if investigators have conducted investigations that were made anonymously. Facility investigators have conducted investigations into allegations that were reported anonymously. Investigators informed they conduct an investigation into all allegations to the fullest extent. Each investigator was asked if they attempt to discover if staff actions or lack thereof, contributed to an incident of sexual abuse. The Auditor was informed the investigators do attempt such. If investigators discover staff actions contributed to an incident they defer to management so disciplinary measures can take place (if determined) and local law enforcement notified if warranted. The Auditor reviewed facility investigative reports that were completed during the previous 12 months. Each investigative report included written reports in which staff reported an allegation immediately after learning of the alleged allegation.

The Auditor conducted formal interviews with randomly selected and specifically targeted offenders. Each offender was asked if they are confident in staff's ability to maintain confidentiality of an allegation of sexual abuse after learning of a reported incident. Each offender stated they do feel staff would maintain confidentiality with the information obtained through an allegation of sexual abuse or sexual harassment.

The Auditor reviewed agency training curriculum. Training curriculum for staff, volunteers and contractors includes reporting of sexual abuse and sexual harassment allegations. Each is required to receive training on an annual basis and sign receipt for such on an annual basis. The Auditor verified through training records each staff member, contractor and volunteer had received training and read the policies how to report sexual abuse and sexual harassment information.

**Conclusion:**

The Auditor concluded staff, volunteers and contractors are aware of the NCDPS requirement to report any knowledge, suspicion or information related to sexual abuse and sexual harassment. Staff understands the requirement to maintain confidentiality with the information obtained by an allegation. Interviews with medical and mental health practitioners revealed practitioners understand the requirement for reporting sexual abuse that occurred in a community setting and for youthful offenders. The Auditor reviewed agency policies, procedures, training curriculum, investigative reports and conducted interviews with staff, contractors, and offenders to determine the facility meets the requirements of this standard.

The Warden was asked how the facility ensures the safety of an offender who alleges an imminent risk of sexual abuse. The Warden stated the offender would be removed from contact with the potential abuser and an investigation would take place. Either the at risk offender would be reassigned to another housing unit or the alleged aggressor would be placed in restrictive housing to ensure separation. The facility would review programs, work and education assignments to ensure the offenders did not have contact with one another. If the facility determines the offender cannot be housed safely at the facility either the potential aggressor or potential victim would be recommended for transfer to another facility. If the offender is at risk by a staff member, the facility would reassign the staff member to remove the staff member from contact with the offender pending the results of an investigation. The Warden stated the facility does not rely on restrictive housing for a potential victim unless requested by the potential victim. The Auditor was informed the facility maintains a report that includes all offenders identified at high risk of victimization and those at high risk of abusiveness. The facility ensures they are not housed together.</p> <p data-bbox="240 1951 1489 2078">The Auditor participated in a detailed tour of the Nash Correctional Institution. The Auditor observed multiple housing units that provide an opportunity to ensure offenders who are identified at a substantial risk of imminent sexual abuse could be housed safely from a potential aggressor without requiring the offender be placed in involuntary segregation. The facility has the ability to transfer offenders to another facility if the offender could not be housed safely.</p> <p data-bbox="240 2107 1469 2134">The auditor conducted formal interviews with offenders who made an allegation of sexual abuse in the previous 12 months.</p>

Each was asked if he was placed in involuntary segregation as a result of the allegation. None were placed involuntarily in restrictive housing for his protection from sexual abuse. Each was asked if he had further contact with their alleged abuser. Each informed the Auditor they do not have contact with their alleged abuser.

**Conclusion:**

The Auditor concluded the NCI takes immediate and appropriate actions to ensure the protection of offenders who are identified at a substantial risk of imminent sexual abuse. The Auditor reviewed agency policy, procedures, conducted interviews with staff and offenders, made observations and determined the NCI meets the requirements of this standard.

All security first responders were asked to explain the actions they take when responding to a sexual abuse incident. First responders stated they would maintain separation of the victim and abuser and immediately notify the Officer in Charge. Security staff stated they would request the victim and ensure the abuser not shower, change clothes, eat, use the restroom, brush their teeth, drink or take any actions that could destroy physical evidence. The Auditor asked each what action they take regarding the crime scene. Staff stated they ensure the crime scene is secured or a staff member was posted to keep anyone from entering the area. The Auditor asked each who would be allowed to enter the crime scene to process the evidence. Staff understood Investigators would process evidence from the crime scene and medical staff could enter to treat a victim if needed.</p> <p data-bbox="240 1805 1497 2000">Each staff member interviewed by the Auditor was asked how they preserve evidence of a crime scene. Staff informed the Auditor they would remain in the area until staff responders rope off the area. A staff member would remain at the crime scene until the evidence was collected from the crime scene. Staff stated the population would be locked down or moved to another area following an incident until the evidence could be processed. The Auditor asked how they document their actions. Each staff member stated they are required to submit a written report and required to complete the Incident Scene Tracking Log. Evidence from the crime scene will be collected by the Nash County Sheriff's Office Investigator.</p> <p data-bbox="240 2029 1417 2089">The Auditor reviewed the NCI Coordinated Response Plan. The Coordinated Response Plan includes first responders duties following an incident of sexual abuse. The Auditor observed the following required actions of security officers:</p>

- Take immediate action to protect the offender;
- Ensure the alleged victim is safe by separation from the alleged abuser;
- Do not leave the victim alone until properly relieved;
- Ensure alleged victim and abuser receive medical treatment if applicable;
- Secure the crime scene until steps can be taken to collect any evidence;
- Request the alleged victim not to take any actions that might destroy physical evidence (brushing teeth, urinating or defecating, smoking, showering, changing clothes, eating and drinking);
- Ensure alleged abuser not to take any actions that might destroy physical evidence (brushing teeth, urinating or defecating, smoking, showering, changing clothes, eating and drinking); and
- Notify the OIC/Senior Person in Charge or immediate supervisor as soon as possible.

The NCI Coordinated Response plan directs non-security staff first responders request the alleged victim not take any actions that could destroy physical evidence, and then notify security staff.

The Auditor reviewed the agency's training records. Training curriculum includes first responder duties of both security and non-security personnel. The Auditor observed all staff, contractors and volunteers have been trained to appropriately respond to incidents of sexual abuse.

The Auditor conducted formal interviews with non-security first responders. Non-security first responders informed the Auditor they have received training by the agency to respond to incidents of sexual abuse. The Auditor asked each what actions they would take if they discovered an offender had been sexually abused. Each informed the Auditor they would remain with the offender and immediately notify a security staff member. Each was asked if they would be required to write a report regarding their knowledge and actions in response to the information. Each stated they are required to document such. The Auditor asked how they ensure any evidence would be protected. Each non-security first responder stated they would ask the offender not to take any actions that would destroy physical evidence. The Auditor asked each what actions would destroy evidence. The Auditor was informed brushing teeth, changing clothes, using the bathroom, bathing, smoking, eating and drinking could potentially destroy physical evidence.

The Auditor conducted formal interviews with medical practitioners. The practitioners understand how to treat an offender while preserving physical evidence. The Auditor was informed medical staff immediately treat any life threatening injuries. If the victim has no life threatening injuries medical personnel collect the offender's vital signs and speak to the victim until transported to the hospital for a forensic examination. The Auditor was informed any clothing or other evidence removed from the victim while treating a life threatening injury would be provided to the law enforcement Investigator. The medical practitioners stated medical personnel attempt to preserve any evidence while treating the victim.

The NCI reported receiving 3 allegations of sexual abuse within the previous 12 months. None of the incidents were reported within a time that could potentially yield forensic evidence. Each alleged victim was immediately separated from the alleged abuser. The facility has not had a need to transport a victim to the hospital for a forensic examination within the previous 12 months. The Auditor conducted formal interviews with offenders who alleged sexual abuse at the facility. Each stated they were immediately separated from the alleged abuser. Those offenders stated they did not need to be transported for a forensic examination. The offenders informed the Auditor they have not had any more contact with their alleged abuser.

**Conclusion:**

The Auditor determined the facility has trained its staff in their responsibilities as a first responder following an incident of sexual abuse. Staff interviewed by the Auditor appeared proficient in their first responder duties. The Auditor reviewed agency policies, procedures, Coordinated Response Plan, training records, interviewed staff and determined the facility meets the requirements of this standard.

prepared its staff to take appropriate actions in response to an incident of sexual abuse. The agency's training includes elements of its Coordinated Response Plan. The Auditor verified all agency personnel, volunteers and contractors had received the training.

The Auditor conducted formal interviews with offenders. Offenders were asked if they feel safe in the facility. Each stated they do feel safe in the facility. Offenders were asked if they are confident in staff's abilities to respond to incidents of sexual abuse. Each offender interviewed stated they are confident in staff's abilities to respond to incidents and ensure their protection. The Auditor asked each offender if they had ever heard of or seen an incident of sexual abuse occurring at the facility. Excluding those who filed an allegation, offenders stated they have not seen or heard of an incident of sexual abuse occurring at the facility.

The facility received no allegation that required staff follow the actions in the Coordinated Response Plan. Through interviews, the Auditor determined line staff understands they are required to immediately ensure the safety of each offender who alleges sexual abuse, secure the crime scene, notify the OIC, and seek medical attention for the victim and abuser.

**Conclusion:**

The Auditor determined the facility maintains an appropriate response plan that coordinates the actions of personnel following an incident of sexual abuse and trained its personnel to follow the plan. Based on a review of agency policies, procedures, Coordinated Response Plan, Coordinated Response Overview, training records, and interviews with staff and offenders, the Auditor determined the NCI meets the requirements of this standard.

The NCI has designated the PREA Compliance Manager responsible for monitoring for acts of retaliation against staff and the PREA Support Person responsible for monitoring acts of retaliation against offenders. The Auditor conducted a formal interview with a facility PREA Support Person. The Auditor asked the PSP to explain how retaliation monitoring is conducted at the facility. The retaliation monitor explained she reviews disciplinary charges, housing changes, program changes, grievances, Incident Reports, classification actions, evaluations, shift rosters, post assignments and any other documents that may be relevant to the monitoring. The Auditor asked if she initiates contact with the offender being monitored. The monitor stated she initiates meetings with the person being monitored.</p>

The Auditor asked the monitor how often meetings with the offender occur. The Auditor was informed she meets with the offender at least every 30 days. The PSP continues to informally meet with the offender while touring the facility. Informal meetings occur between the 30-day meetings. The monitor explained some offenders require more frequent meetings than others. The Auditor asked the PSP if she would stop monitoring if the offender requested her to do so. The monitor stated she would not stop monitoring until at least 90 days have transpired.

The retaliation monitor was asked how she is notified when an offender requires monitoring. She is informed by the investigator or PREA Compliance Manager following an allegation. The Auditor asked what actions are taken to ensure the protection of an offender being monitored. The Auditor was informed housing, program, education and work changes would be made. The PSP would recommend post or shift assignment changes if she discovered a staff member is retaliating against an offender. The PSP consults with leadership when determining a staff member may be retaliating against an offender. The Auditor asked if the facility was currently monitoring any offenders or staff for retaliation. The PSP stated she was not currently monitoring any offenders at the time of the audit. A review of training records revealed the facility has two staff members trained as PREA Support Persons. The facility's Warden sent a letter to the PREA Office designating the staff responsible for monitoring retaliation.

The Auditor asked how the PSP ensures offenders are monitored when transferred. The PSP stated all allegations are included in the OPUS Incident Reporting System so the PSP can view the information at other facilities. The PSP stated she makes a telephone call and emails the PSP at the offender's new facility to ensure the monitoring continues. The PSP stated she continues monitoring an offender if an offender is transported to the Nash Correctional Institution while being monitored at another facility. The PSP stated she has monitored offenders in the past who have been transferred while being monitored at another facility.

The Auditor reviewed investigative reports from the previous 12 months. The Auditor reviewed reports in which a staff member was alleged to have committed an act of sexual abuse or sexual harassment. In each case the alleged victim was assigned a PSP. The PSP began monitoring each alleged victim following their allegation. The investigative records included form OPA-124. The PSP documented the initial meeting with the alleged victim and follow up meetings. The PSP monitored each alleged victim for a minimum of 90 days. OPA-124 requires the PSP document each periodic status check with the alleged victim. The form includes a comment section where the PSP documents findings when meeting with the alleged victim. The form requires the PSP document whether retaliation was or was not found.

The form includes instructions for the PSP. The instructions documented on the form include:

- Upon notification of a sexual abuse or sexual harassment allegation, the assigned PSP will initiate monitoring of the alleged victim, the offender or juvenile that reported the allegation or cooperated with officials during the investigation;
- Monitoring will continue for a minimum of 90 days, or beyond 90 days if the initial monitoring indicated a continuing need;
- Termination of monitoring prior to minimum of 90 days requires: the allegation to be determined unfounded; and approval by facility head to terminate monitoring;
- Document periodic status checks on this form; and
- Upon completion of the monitoring period, the PSP will conduct a final status check and review for retaliation. The results will be documented on the form.

Form OPA-122 PREA Sexual Abuse and Harassment Retaliation Report is completed by the PREA Compliance Manager while monitoring staff for retaliation.

**Conclusion:**

The Auditor determined the agency has appropriate policies and practices in place to ensure staff and offenders are protected from retaliation. The Auditor reviewed the NCDPS policies, procedures, forms, investigative reports, training records, conducted interviews with staff and determined the facility meets the requirements of this standard.

The staff member stated any restrictions in the restrictive housing unit are documented so staff working the unit are made aware of the restriction. The Auditor asked if the duration of such restrictions is included. The officer informed the Auditor the duration and limitations are documented. The Auditor asked when the last time the staff member supervised an offender in the restrictive housing unit that was placed on protective custody for the protection from sexual abuse. The staff member stated she is not aware of an offender housed in restrictive housing for such purpose. The staff member stated the facility does not house offenders in Restrictive Housing solely for the protection from sexual abuse.</p> <p data-bbox="240 2036 1474 2161">The Auditor conducted formal interviews with offenders who alleged an incident of sexual abuse. Each was asked if they had ever been housed in Restrictive Housing. None of the offenders had been housed in Restrictive Housing for the protection from sexual abuse. The Auditor reviewed the investigative records of each offender's allegations. Records do not include placement into involuntary restrictive housing.</p>

The Auditor conducted a detailed tour of the Nash Correctional Institution. The Auditor observed numerous housing units available for the facility to house offenders without having to place them in involuntary segregated housing. The agency has the option to transfer offenders to another facility designated to house offenders in need of Protective Custody if the offender cannot be housed safely in the facility.

**Conclusion:**

Agency policy includes the elements of PREA standard 115.43 to ensure sexual abuse victims receive privileges, programming, education, and work opportunities if a victim is placed in segregated housing for protection. For security reasons, the facility does not allow work opportunities for offenders placed in Restrictive Housing. After a thorough review of agency policies, procedures, housing records, making observations, interviewing staff and offenders, the Auditor determined the facility meets the requirements of this standard.

The PREA investigators discussed the procedures utilized when conducting sexual abuse investigations. The process starts by interviewing the alleged victim. During the investigation they interview the alleged victim, perpetrator and all witnesses, including staff witnesses. The Auditor asked each investigator what information they review during the investigation. Each Investigator stated they review criminal records, institutional history, grievances, discipline history, Incident Reports, Request Forms, telephone records, video footage, previous complaints and any other relevant information. The investigators were asked how they determine the credibility of a victim, abuser and witnesses. The Auditor was informed credibility is based on a review of documents, information, phone records, video evidence, statements and behaviors made during the interview and subsequent interviews.</p> <p data-bbox="242 1886 1469 2132">Each investigator was asked if they attempt to determine if staff actions or failure to act may have contributed to an incident of sexual abuse. Each Investigator stated they do attempt to determine if staff actions, or lack thereof contributed to the incident. The Auditor asked each investigator what types of evidence they attempt to gather. The Auditor was informed investigators gather staff reports, housing records, logbooks, telephone records, grievances, discipline records, testimonial evidence, previous complaints, physical evidence and any other relevant documents or information. The Investigators were asked when they begin investigative efforts. The Auditor was informed investigations begin as soon as the allegation is received. Investigators are required to report to the facility during non-working hours, when appropriate, if an allegation of sexual abuse is made.</p>

The Auditor toured the area where investigative records are maintained. Facility investigators maintain all investigative documents and reports in their locked office. All information related to investigations is input into the OPUS for compiling data. The electronic system is accessible to the agency's PREA Office. The Auditor asked the investigators how long they maintain investigative records. The Auditor was informed the data is maintained for at least 5 years after the abuser has either been released or is no longer employed by the NCDPS. The Investigators were asked if they require the victim to submit to a polygraph examination. The Auditor was informed the facility does not polygraph alleged victims or use any other truth telling device to proceed with an investigation.

Investigative records are forwarded to the PREA Compliance Manager. Any information forwarded to the PCM is maintained in the PCM's locked office. The PCM maintains those records for a minimum of five years after the abuser has been released or no longer employed by the agency. All electronically maintained information is maintained on computers and accessible by individual usernames and passwords.

The Auditor asked investigators if they conduct an investigation when an allegation is reported anonymously or by third-party. The Investigators stated they conduct an investigation no matter how the allegation is made. When asked how investigators conduct those types of investigations each Investigator stated they attempt to investigate every allegation to a conclusion. Each investigator was asked to explain the investigative process if an offender is released or a staff member terminates employment. The Investigators coordinate with local law enforcement as facility investigators do not have the authority to investigate in the community. Investigators coordinate with other facilities if an offender is transferred to another facility. Investigators stated they would attempt to call a staff member and former offender at their home and attempt to get a statement.

The Auditor discussed the criminal investigative process in the facility. The Investigators were asked to explain their role when local law enforcement conducts investigations in the facility. The Investigators stated they cooperate with local law enforcement and assist when asked to do so by the Investigator. The Auditor was informed the facility has a good working relationship with the local law enforcement agency and are able to remain informed during the criminal investigation and prosecutorial efforts. Facility investigators provide all collected evidence to local law enforcement, to include written documents, telephone records and video footage.

The Auditor reviewed investigative reports of allegations received during the previous 12 months. The Auditor observed evidence facility Investigators are conducting prompt and objective investigations. The investigative reports included physical, testimonial and circumstantial evidence. The investigative records included attached Incident Reports, statements and other information used as evidence. The Auditor did not observe the reason behind credibility assessments documented in the investigative reports.

The Auditor conducted a review of the NCDPS training records. Records reveal facility PREA investigators have received specialized training to conduct sexual abuse investigations in a confinement setting. The facility has three staff who have been trained to conduct such investigations. The Auditor asked facility PREA investigators what their actions are when determining the evidence appears to support prosecution. Each investigator stated the administrative investigation is immediately stopped and local law enforcement are notified. The Investigators were asked if they continue efforts after notifying law enforcement. The Auditor was informed administrative efforts would not be completed until notified to do so by the law enforcement investigator.

The facility has a Coordinated Response Plan that includes the required actions of investigators following an allegation of sexual abuse. The plan requires, "All allegations, including third-party and anonymous reports of sexual abuse shall be investigated promptly, thoroughly, and objectively by a specially trained sexual abuse and harassment investigator." The plan requires agency Investigators cooperate with outside investigators and shall endeavor to remain informed about the progress of the investigation.

The Auditor conducted formal interviews with offenders who made an allegation of sexual abuse and sexual harassment during the previous 12 months. Each offender was asked if he had met with a facility investigator after making the allegation. Each offender informed the Auditor an investigator met with them quickly after making the allegation. Each was asked how long it took before they were notified of the investigative results. The responses revealed investigations are concluded promptly. One offender stated he had not been notified of the results. The Auditor determined the investigation had not been concluded at the time of the audit. The facility had one investigation being performed by the Nash County Sheriff's Office. At the time of the audit the facility had not been notified of the investigative result.

No department of justice component is responsible for conducting investigations in the Nash Correctional Institution.

**Conclusion:**

The Auditor determined the NCDPS has appropriate policies to ensure investigations are conducted appropriately, objectively and thorough. The agency trains its PREA investigators to conduct investigations in a confinement setting. Facility PREA investigators are aware all criminal allegations must be referred to the local law enforcement agency for

criminal investigation. The Auditor reviewed agency policy, procedures, training records, investigative records, Coordinated Response Plan, interviewed staff and offenders to determine the facility meets the requirements of this standard.

The Auditor discussed the requirement of documenting the reason behind credibility assessments with Investigators and PREA

Compliance Manager. Each was informed how to determine and document credibility assessments. The Auditor determined not to require corrective action as allegations cannot be predicted.

Investigators continue an administrative investigation until a determination is made. The results of an investigation are shared with leadership so appropriate discipline against a staff member can be sanctioned, if warranted. The facility reported no staff member has been disciplined for a violation of sexual abuse or sexual harassment policies in the previous 12 months. The facility had one staff member resign in lieu of termination during this audit period. The Nash County Sheriff's Office was notified and is currently investigating the alleged incident.</p> <p data-bbox="240 1989 1458 2114">The Auditor observed the agency's policy includes a provision to notify law enforcement agencies of criminal violations of sexual abuse. The policy also requires notification to relevant licensing bodies. The Auditor discussed the requirements of this standard to notify relevant licensing bodies. The Auditor was informed licensing bodies such as the Board of Nursing would be notified if a staff nurse committed an act of sexual abuse.</p>

The Auditor conducted a review of staff training records. Records reveal all staff have been trained in the agency's prevention, detection and response policies and procedures. Staff are required to sign the agency's OPA-T10 Staff Acknowledgement form. The form states, "You have an obligation to: (1) maintain clear boundaries with inmates/offenders/juveniles and (2) establish a relationship of authority, objectivity and professionalism. You must not allow the development of personal, unduly familiar, emotional or sexual relationships to occur with inmates/offenders/juveniles." The form reminds staff that all forms of sexual abuse and sexual harassment of inmates/offenders/juveniles are against the NCDPS policy and may be against the law. The form provides the definitions of sexual abuse and sexual harassment.

The Auditor observed the North Carolina General Statute Chapter 14-27.31 on the form. The statute states, "if a person having custody of a victim of any age or a person who is an agent or employee of any person, or institution, whether such institution is private, charitable, or governmental, having custody of a victim of any age engages in vaginal intercourse or a sexual act with such victim, the defendant is guilty of a Class E Felony."

The Auditor conducted a review of the agency's PREA: Sexual Abuse and Sexual Harassment 201 training lesson plan. The lesson plan includes a section regarding sanctions for staff. The Auditor observed the following:

- Dismissal shall be the presumptive disciplinary sanction for staff who has engaged in sexual abuse;
- Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) shall be commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories;
- All dismissals for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, shall be reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies; and
- Staff who engage in sexual relationships with offenders/juveniles will be subject to disciplinary sanctions up to and including dismissal for violating agency sexual abuse or sexual harassment policies and may be prosecuted under state and federal statutes.

The Nash Correctional Institution Warden has the authority to discipline staff, including suspension and termination.

**Conclusion:**

The Auditor determined the agency has appropriate policies and practices in place to ensure staff are disciplined for violating agency sexual abuse and sexual harassment policies. The agency makes termination the presumptive discipline measure for engaging in acts of sexual violence. The agency reports violations of sexual abuse to the local law enforcement agency and relevant licensing bodies. The Auditor reviewed agency policies, procedures, training records, training curriculum, OPA-T10, conducted interviews with staff, and determined the facility meets the requirements of this standard.

or volunteer had been disciplined within the previous 12 months for violating the NCDPS sexual abuse or sexual harassment policies and procedures. The Auditor was informed no contractor or volunteer had been found in violation of those policies.

Volunteer services in the facility have been suspended since the onset of COVID-19.

**Conclusion:**

The NCDPS maintains appropriate policies to ensure contractors and volunteers at the Nash Correctional Institution are removed from offender contact after committing an act of sexual abuse or sexual harassment of an offender. The Auditor reviewed agency policies, procedures, training records, training curriculum, acknowledgement forms and conducted formal interviews with staff and contractors to determine the facility meets the requirements of this standard.

Offenders will not be disciplined for sexual contact with a staff member if the staff member consented to the act. Policy requires discipline sanctions only after the offender participates in a formal disciplinary hearing and the hearing committee finds evidence of guilt. The agency's policy allows staff to discipline offenders for acts of sexual abuse after a criminal finding of guilt. According to facility policy, sanctions following the discipline process must consider the following:</p> <ul data-bbox="282 488 1299 577" style="list-style-type: none"> <li>• The nature and circumstances of the offense committed;</li> <li>• The offender's discipline history; and</li> <li>• The sanctions imposed for comparable offenses committed by other offenders with similar histories.</li> </ul> <p data-bbox="240 609 1469 698">The discipline process is required to consider whether the offender's mental disabilities or mental illness contributed to his/her behavior when determining what type of sanction, if any, should be imposed. Following a substantiated incident, the offender must be offered a mental health evaluation when deemed appropriate.</p> <p data-bbox="240 730 1445 819">Agency policy requires facilities that offer therapy, counseling, or other interventions designed to address and correct the underlying reasons or motivations for sexually abusive behavior shall consider if offenders are required to participate in interventions as a condition of access to programming or other benefits.</p> <p data-bbox="240 851 1477 1012">Agency staff is prohibited from disciplining an offender who makes a report of sexual abuse in good faith and based on a reasonable belief the incident occurred, even if the investigation does not establish sufficient evidence to substantiate the allegation. Sexual activity between offenders is prohibited within agency facilities. Any offender found to have participated in sexual activity (even consensual) is disciplined for such activity. If sexual activity between offenders is found to be consensual the NCDPS personnel may not consider the sexual activity as an act of sexual abuse.</p> <p data-bbox="240 1043 1477 1106">The facility's policy states, "The agency may not discipline an inmate victim for sexual contact with staff unless a finding that the staff member did not consent to such contact."</p> <p data-bbox="240 1137 488 1164"><b>Evidence Relied Upon:</b></p> <p data-bbox="240 1196 1054 1223">Agency Policy - .3400 Offender Sexual Abuse and Sexual Harassment, pg. 30-31</p> <p data-bbox="240 1254 863 1281">Agency Policy - .0200 Inmate Disciplinary Procedures, pg. 1-3</p> <p data-bbox="240 1312 1134 1339">Facility SOP - .0500 Administration-Inmate Sexual Abuse and Sexual Harassment, pg. 12</p> <p data-bbox="240 1370 555 1397">Inmate Handbook, pg. 8-10, 32</p> <p data-bbox="240 1429 520 1456">NCI Orientation Information</p> <p data-bbox="240 1487 751 1514">Sexual Abuse Awareness For the Inmate Brochure</p> <p data-bbox="240 1545 424 1572">Offender Records</p> <p data-bbox="240 1603 515 1630">Interviews with Investigator</p> <p data-bbox="240 1662 608 1688">Interviews with Medical Practitioners</p> <p data-bbox="240 1720 647 1747">Interview with Mental Health Practitioner</p> <p data-bbox="240 1778 499 1805">Interviews with Offenders</p> <p data-bbox="240 1836 464 1863"><b>Analysis/Reasoning:</b></p> <p data-bbox="240 1895 1414 1957">The agency provides each offender an Offender Handbook. The Auditor conducted a review of the agency's Offender Handbook. The handbook includes the following prohibited acts in the "Disciplinary Offenses" section:</p> <ul data-bbox="282 2011 1445 2154" style="list-style-type: none"> <li>• Commit an assault on another with intent to commit any sexual act;</li> <li>• Commit an assault on a staff member with intent to commit any sexual act;</li> <li>• Commit an assault on any person, other than an employee or Offender, with intent to commit any sexual act; and</li> <li>• Commit, solicit, or incite others to commit any sexual act or indecently expose oneself or touch the sexual or other intimate parts of oneself or another person for the purpose of sexual gratification.</li> </ul>

Each offense listed above is included in a specified category of offense. The Offender Handbook includes the sanctions for those found in violation of the offense. The Offender Handbook states, "All cases of substantiated sexual assault or misconduct will be referred to law enforcement for criminal investigation. You may be prosecuted and if you are found guilty additional prison time may be added to your current sentence."

Each offender receives a copy of the agency's written orientation information upon arrival. The orientation information informs offenders, "Inmates will be held accountable for knowingly making false reports of unfounded incidents of sexual abuse against staff or another inmate. If it is clearly established that a false accusation has been made, the inmate may be subject to disciplinary action." Each offender receives the "Sexual Abuse Awareness For the Inmate" brochure upon arrival at the Nash Correctional Institution. The brochure informs offenders sanctions for committing substantiated acts of sexual abuse "will be harsh." The brochure states, "Your custody level will be reviewed and likely increased which could mean a transfer to a higher security prison or unit with significantly less freedom of movement and limited privileges."

The Auditor conducted a formal interview with facility investigators. Investigators informed the Auditor disciplinary charges are placed following a substantiated administrative allegation of sexual abuse and/or following a criminal finding of guilt. The Investigators do not place disciplinary charges on an alleged abuser if the investigative determination is unfounded or unsubstantiated. The investigators were asked if charges are placed on offenders if an act is consensual. The Auditor was informed disciplinary charges are placed on offenders for participating in sexual activity. Investigators explained offenders who participate in a consensual sex act are not charged for a sexual abuse related offense.

The Auditor conducted formal interviews with medical and mental health practitioners. The Auditor asked what services are offered to offenders. Offenders are offered counseling, therapy and other intervention services. The Auditor asked if offenders are required to participate in any meetings or sessions. The Auditor was informed offenders are not required to participate in any medical or mental health service offered at the facility. Medical and mental health services are offered to offenders and offenders are provided services after requesting such.

The facility reported there was no offender disciplined for making an allegation of sexual abuse in bad faith during the previous 12 months. The Auditor discovered no evidence an offender at the facility who filed an allegation of sexual abuse in the previous 12 months had been disciplined for filing an allegation in bad faith. The facility reported one allegation referred to local law enforcement for criminal investigation was pending at the time of the audit. There has been no offender found guilty of a criminal charge of sexual abuse in the previous 12 months.

The Auditor conducted formal interviews with randomly selected and specifically targeted offenders. No offender interviewed, including those who submitted an allegation of sexual abuse or sexual harassment had received a disciplinary charge for such acts. Each offender interviewed stated they were provided a handbook by the agency.

**Conclusion:**

The Auditor discovered the agency maintains policies that align with PREA standard 115.78 Discipline Sanctions for Inmates. Facility personnel ensure the policy is applied when choosing whether to discipline an offender for reporting or participating in an act of sexual abuse. The Auditor reviewed policies, procedures, offender records, Offender Handbook, orientation information, interviewed staff and offenders. The Auditor determined the facility meets the requirements of this standard.

The practitioner was asked if she meets with offenders who report suffering previous victimization. The mental health practitioner stated she does meet with those offenders. The Auditor asked how she is notified. The mental health practitioner informed the Auditor she is notified by medical personnel or by the Case Manager after offenders arrive to the facility. The mental health practitioner stated a follow up is offered for sexual abusers as well. The mental health practitioner stated she creates and follows treatment plans for each offender. The mental health practitioner stated she meets with victims within a couple days and is clear of the 14 day requirement.</p> <p data-bbox="240 2128 1445 2154">The Auditor conducted formal interviews with medical health practitioners. who enter the agency. The Auditor asked if offenders are offered a follow-up with the mental health professional when they report previously suffering sexual abuse. The Auditor was informed they are offered a follow-up meeting with a Mental Health Professional. Medical practitioners were asked who medical and mental health share their information with. The Auditor was informed they only discuss the information they learn with those who have a need to know. The Auditor asked medical and mental health practitioners if they obtain written informed consent prior to sharing information related to sexual victimization. The Auditor was informed if the victimization occurred in a community setting then written informed consent would be obtained prior to reporting. No medical or mental health practitioner has had a need to report such victimization.

The Auditor asked medical and mental health practitioners who information regarding a sexual victimization or abusiveness that occurred in an institutional setting is reported to. The Auditor was informed that information is reported to the Officer-in-Charge. The Auditor asked who has access to an offender's medical and mental health record. Only medical and mental health practitioners have access to an offender's medical and mental health records.

The mental health practitioner is notified when an offender reports suffering sexual victimization in the community, following an incident of sexual abuse and by referral or requests. Offenders meet with the mental health practitioner in an office. The Auditor asked if meetings with mental health are mandatory or required. The mental health practitioner stated the meetings are not mandatory. The mental health practitioner informed the Auditor she attempts to conduct an evaluation of all offender-on-offender abusers within 60 days of learning of the abuse.

The Auditor conducted a formal interview with a facility PREA Support Person. The PSP discussed her responsibilities following an alleged sexual abuse. The PSP stated it is her responsibility to ensure the offender understands all available services. The PSP informs the victim that mental health services and counseling are available through the facility and through the rape crisis center. The PSP stated she does inform medical and mental health personnel following an incident of sexual abuse.

The Nash Correctional Institution does not house youthful offenders.

**Conclusion:**

The Auditor concluded offenders are offered a follow-up with a medical or mental health practitioner after reporting they have suffered sexual victimization. Medical and mental health practitioners inform only those with a "need to know" of information related to sexual victimization. The Auditor reviewed agency policies, procedures, offender records, conducted interviews with staff, medical and mental health practitioners and offenders. After a review the Auditor concluded the facility meets the requirements of this standard.

Each informed the Auditor they take immediate steps to ensure victims are protected and receive emergency medical care in the event needed. Security staff immediately notify their supervisor following an incident of sexual abuse. Security supervisors were asked what actions they take to ensure the safety of the offender following a sexual abuse incident. The Auditor was informed the victim is immediately escorted to the medical area.</p> <p data-bbox="240 2078 1485 2139">The Auditor conducted a formal interview with a facility PREA Support Person. The PSP informed the Auditor once she is assigned to work with the victim, she notifies the victim of services that are available. The Auditor asked the PSP how quickly</p>

she is assigned. The PSP stated she is assigned immediately. The PSP is required to accompany the victim during a forensic examination when requested. The PSP informs the victim of all available crisis intervention services, to include those available through the Rape Crisis Center.

The Auditor reviewed the facility's Coordinated Response Plan. Among other actions, the plan includes the following:

- Ensure alleged victim and offender abuser receives medical treatment (if applicable);
- Medical Services will follow medical protocol to include aftercare procedures;
- Document and transport to the local emergency department when appropriate;
- Provide victim access to outside community support based on policy and agency agreements; and
- Follow mental health treatment protocols.

The Coordinated response plan requires, "Medical Services will follow medical protocol, to include aftercare procedures per the DAC Section policies." The plan stipulates medical personnel will document and transport the resident victim to the local emergency department when appropriate for examination, emergency contraception, collection of forensic evidence, sexually transmitted infections prophylaxis, and counseling, if outside community support is available. The Coordinated Response Plan requires medical personnel to examine an alleged abuser. The PSP is required to explain services available to the victim.

The Auditor reviewed the Letter of Agreement with "My Sister's House." The memorandum stipulates the Warden or designee will notify "My Sister's House" expeditiously following a sexual assault and when services are requested by the alleged victim. The Warden or designee is responsible for coordinating a visit with one of the counselors and the alleged victim. The Auditor conducted a telephone interview with a victim advocate from "My Sister's House." The Auditor discussed the Memorandum of Understanding with the victim advocate. The advocate explained the crisis intervention services offered to offender victims of sexual abuse. The victim advocate was unaware of an offender who has requested crisis intervention services in the previous 12 months.

The Auditor conducted formal interviews with offenders. The Auditor discovered some offenders were aware of crisis intervention services and others were not aware. Each was asked if they were provided information and an orientation. Offenders

informed the Auditor they received written information from facility staff. Some offenders stated they received information but did not pay attention to the information. During orientation offenders are informed that outside support services are available and directs the offender to the housing unit bulletin board for the contact information. Each offender was asked if they were aware services related to sexual abuse are free to offender victims. Each is aware those services are free. The Auditor asked offenders if they have seen posted materials in the facility regarding the rape crisis center. Most offenders had noticed the information on the posters.

The Auditor conducted a telephone interview with a Sexual Assault Nurse Examiner. The SANE was asked if she provides pregnancy testing, emergency contraception and sexually transmitted disease infection prophylaxis. The Auditor was informed she does offer such at the time of the examination, when appropriate. The SANE informed the Auditor an offender would not be billed for a forensic examination. The NCDPS receives the invoice for services. The SANE has received no offender from the Nash Correctional Institution for a forensic examination during this audit period.

**Conclusion:**

The Auditor determined the facility provides offenders access to timely and unimpeded access to emergency medical services. Medical practitioners provide offender victims with sexually transmitted infections prophylaxis. The Auditor reviewed agency policies, procedures, letter of agreement, Coordinated Response Plan, orientation information and interviewed staff, offenders, SANE and victim advocate. The Auditor determined the facility meets the requirements of this standard.

Medical practitioners at the facility do not offer pregnancy testing as the facility does not house female offenders. The Auditor asked what the cost of services are for victims of sexual abuse. The Auditor</p>

was informed there are no costs for evaluations and treatments related to sexual victimization.

The Auditor conducted a formal interview with a PREA Support Person. The PSP informs victims of available services following an alleged incident. The PSP documents the notification to the victim. The victim is informed of facility and community services that are available to the victim. Services include, follow-ups, treatment plans, and referrals for continued care following a transfer to, or placement in, other facilities, or release from custody.

The agency offers a S.O.A.R. - Sex Offender Accountability and Responsibility program to sexual offenders. The program is a twenty (20) week, 5 days each week program designed to treat sex offenders. The Auditor conducted formal interviews with offenders who had a history and/or criminal convictions of sexual abuse related crimes. The Auditor asked each if they had been offered any services from a mental health practitioner. Those offenders have been offered such services. Some offenders have met with a mental health practitioner while others stated they declined the services. Several meet with a mental health practitioner on a routine basis.

The Auditor conduct a telephone interview with a Sexual Assault Nurse Examiner. The SANE explained victims are offered sexually transmitted disease testing and pregnancy testing is offered to all females during a forensic examination. The SANE offers female victims timely information and timely access to lawfully related pregnancy services. The Auditor asked how much do the SANE services cost an offender. The SANE does not directly bill the offender for services related to the forensic examination. The SANE informed the Auditor there has been no offender from the Nash Correctional Institution sent for a forensic examination within the past 12 months. The NCI is designated as a male facility.

At the time of the audit there were no offenders housed at the facility who had reported victimization that required a forensic examination, sexually transmitted infection prophylaxis, pregnancy testing or information related to such. At the time of the audit there were no offenders housed who were identified as known inmate on inmate sexual abusers who required an evaluation by mental health practitioners. No sexual abuse investigation conducted during the previous 12 months was determined to be founded by a facility investigator.

**Conclusion:**

The facility's medical and mental health practitioners offer counseling, treatment, sexually transmitted infection prophylaxis and make referrals for continued care when necessary. The services provided to offender victims are consistent with a community level of care. The Auditor reviewed policies, procedures, offender records, interviewed offenders, SANE and medical practitioners to determine the facility meets the requirements of this standard.

The staff member discussed the process of the review team with the Auditor. The staff member explained the team reviews the investigative report and discusses the allegation. The Post Incident Review Team follows a formatted form to ensure all elements of this standard are considered. The team member stated the team does discuss recommendations for improvement and include those recommendations on the final report. The Incident Review Team Member was asked when the team meets following an investigation. The Auditor was informed the team meets within 30 days after the conclusion of the investigation. The Auditor asked if the team has met within the previous 12 months and was informed the Sexual Abuse Response Team (SART) has reviewed several incidents.</p> <p data-bbox="240 1953 1489 2145">The Auditor conducted a review of two facility PREA Post Incident Reviews. One review was conducted within 30 days of the conclusion of the investigation. One review was conducted 35 days following the conclusion of the investigation. The investigator determined both sexual abuse allegations were unsubstantiated by the facility investigator. Each form included the name of each team member. The Warden's signature was included on the last page of the reports. The reports are forwarded through the Regional Office to the PREA Office. The Auditor observed the following considerations in the PREA Post Incident Review:</p>

- Did the allegation or investigation indicate a need to change policy or practice to better prevent, detect or respond to sexual abuse;
- Was the incident or allegation motivated by race; ethnicity; gender identity; lesbian; gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or other group dynamics;
- During the assessment of the area where the incident allegedly occurred, were there any physical barriers that may have enabled sexual abuse;
- Are staffing levels in that area adequate during different shifts;
- Based upon assessment, should additional monitoring technology be deployed or augmented to supplement supervision by staff; and
- Additional comments and/or corrective actions taken.

The form states, "All recommended actions not implemented must be justified and documented." The Auditor observed the following personnel in attendance during the Post Incident Review:

- PREA Compliance Manager
- Associate Warden of Programs
- Correctional Captain

The Auditor observed no evidence input was provided from line supervisors or a medical/mental health practitioner during the Post Incident Reviews.

**Conclusion:**

The Auditor determined the facility understands the requirement to conduct an incident review within 30 days of the conclusion of each substantiated and unsubstantiated sexual abuse investigation. The Post Incident Review Team documents the performance of each incident review on a formatted form. The Auditor reviewed the NCDPS policies, procedures, PREA Post Incident Reviews, investigative reports and conducted interviews with staff and determined the facility agrees to meet the requirements of this standard in future reviews.

The Auditor discussed the requirement to conduct a review within 30 days of the conclusion of the investigation and the requirement to include input from line supervisors and medical or mental health in the Post Incident Reviews with the PREA Compliance Manager. The PCM understands the requirements. The Auditor chose not to place the facility into a corrective action period as the Auditor cannot foresee future substantiated and unsubstantiated sexual abuse allegations. The Auditor recommends the facility consider including line supervisors and medical/mental health personnel during incident reviews.

The agency maintains annual reports that include its findings and corrective actions for all agency facilities. The public can access the agency's reports through the "DPS Services" dropdown tab and then by clicking on the "Prison Rape Elimination Act" link. After opening this link the public can view each annual PREA Report that is labeled and hyperlinked. The Auditor observed reports from 2015 to 2020 on the website.</p> <p>A review of the facility's annual reports reveals the agency attempts to discover problem areas within each agency facility based on a review of data collected. The agency's annual report includes corrective actions taken by the NCDPS. The "Corrective Actions" section of the annual report identified no corrective actions made at the Nash Correctional Institution in 2020. The agency's report included corrective actions made at 19 NCDPS facilities during 2020 and specifies the corrective actions made at each facility. The Auditor did not observe any problem areas or corrective actions noted at the NCI in the 2020 annual report. The annual report includes a comparison section that compares data from the current year with data from previous years.</p> <p>The information for the annual report is derived from information maintained in the OPUS Incident Reporting System. Corrective actions are implemented at facilities when needed as the Post Incident Review Team recommends corrective actions when warranted following the incident review. Any corrective actions taken are documented in the agency's annual report. When problem areas are discovered, the Post Incident Review Team recommends a solution to address the problem area and include the specifics in the Post Incident Review Report. The PREA Office utilizes data from the Post Incident Review Reports to include in the agency's annual report.</p> <p>The Secretary of the North Carolina Department of Public Safety approves the agency's annual report before publishing on the agency's website. The Secretary signs the annual report. The Auditor did not observe any redacted materials from any of the NCDPS published reports.</p> <p><b>Conclusion:</b></p> <p>The Auditor concluded the agency completes an annual review of collected and aggregated sexual abuse data from its facilities. The annual report addresses problem areas and corrective actions taken and is approved by the Secretary prior to publishing on the agency's website.
